GIRL ON TRIAL FOR SLAYING GODFATHER

Pretty 13-year-old Italian Listens to Charge Without Quail.

Struck Victim With Axe and Ran Hot Poker Through His Body.

PITTSBURG, Oct. 3.—Katherine Botti, a pretty 13-year-old Italian, was placed on trial in the criminal court today, charged with the wilful murder of her godfather.

RECEIVES BATON AS POLICE CHIEF THIS AFTERNOON

JOHN SEYMOUR.

CAPT. SEYMOUR TO HEAD S. F. POLICE

Popular With Old Guard; Is Feared by Those He Has Disciplined.

Appointee Has Served Department for Years as Detective.

SAN FRANCISCO, Oct. 3.—At the meeting of the board of police commissioners, scheduled for three o'clock this afternoon, Captain John Seymour is slated to receive the baton of the chief of police. The position was tendered to Seymour on Saturday and there seems no disposition to change the plan, and there is but little doubt but that tomorrow will see the new head of the department in full charge.

REMOVAL OF POLICE, FIRE AND HEALTH OFFICIALS IS RUMORED

BIG SHAKE-UP IN BERKELEY EXPECTED

Heads May Fall at Meeting of Commission's Tomorrow.

Nature of Charges Against Trio Not Divulged, if There Are Any.

BERKELEY, Oct. 3.—The heads of three city officials of Berkeley will fall before the municipal council at tomorrow's meeting of the city council, according to a well-founded rumor which has gained credence throughout the city today.

CHIEF OF POLICE AUGUST VOLLMER, whose official head is reported to be in danger.

KIDNAPED AND INJURED BY QUARTET

Mrs. Herbert Robinson Carried Into Vacant Lot; Cries Bring Aid.

One Brute Captured After Bullets Are Sent After Him by Patrolman.

SAN FRANCISCO, Oct. 3.—Practically kidnapped by four men who lay hold of her as she was walking along Twenty-sixth street at an early hour this morning, Mrs. Herbert Robinson was picked up by the quartette, carried into a vacant lot on Serrano avenue and assaulted. She screamed and struggled and her cries were heard by Mr. and Mrs. Peterson of 3316 Twenty-sixth street, who notified the police.

Legal Right to Change Amendment Is Disputed

(By EDWARD A. O'BRIEN.)

SACRAMENTO, Calif., Oct. 3.—At 1:30 this afternoon the senate of the extraordinary session of the legislature, after a discussion of two hours over the amendment of amending constitutional amendment No. 1, providing for the separation of state and county taxes, which has been found defective, took a recess until 3:30 o'clock this afternoon during which time a special committee of seven will consider the best method of changing the amendment in question to render it effective.

POPULAR WITH OLD GUARD.

While Captain Seymour is very popular with the old guard, he is much feared by many who have at one time or another had occasion to witness his strict sense of duty and the firm discipline which he maintains.

VOLLMER UNIFORMED.

Chief Vollmer was seen this morning, and while he admitted that he had heard the rumor, refused to say who was his authority, or tell who steps he would take in case the council's program went off according to schedule.

EMERGENCY POLICE APPOINTED TO HUNT DOWN DYNAMITERS

Seven Bodies Taken From Ruins; Reward for Capture of Fiends Is Increased; Clew Leads to San Francisco

LOS ANGELES, Oct. 3.—Stirred by the fact that the bomb explosion which wrecked the Times plant and killed twenty-one men and subsequent attempted dynamiting outrages, has created an emergency with which the police force is finding itself unable to cope, the City Council passed an emergency ordinance at a special meeting today which authorized the immediate appointment of forty additional patrolmen, ten sergeants and one lieutenant. These men will be used to hunt down and imprison or drive out of the city men who have been known to express commendation for acts of violence, and others who have been in trouble with the police department since the labor troubles began in Los Angeles several months ago.

HEAR CRIES.

As the teenagers were passing up the street they saw in the distance the four men carrying what they thought was a fifth man. They disappeared in the vacant lot and as the people came nearer they heard cries and saw figures moving in the dark interior.

MAKES ESCAPE.

He had Daisley handcuffed to him, but the second man he turned over to Jean La Chetel to hold while he used the phone. The prisoner, watching his chance, struck La Chetel in the face and ran. Officer Cook stepped to the door and fired a number of shots after him and one of these struck Dr. Ryan, but fortunately merely passed through his clothing.

TREASURE SHIP ROBBED OF GOLD

Mail Bags on City of Seattle Slit Open in Night; Two Arrests Made

SEATTLE, Oct. 3.—Mail pouches on the steamer City of Seattle, from Skagway were robbed of an unknown amount of gold last night, all the bags being slit open.

LINER SIBERIA CRASHES INTO VESSEL

Big Boat Rams the Tomashima Maru and Is Slightly Damaged; Goes on Way

KORE, Japan, Oct. 3.—The American liner Siberia from San Francisco, September 18, by way of Honolulu for Hongkong, was in collision today with the Tomashima Maru, a Japanese vessel, and was slightly damaged but proceeded. The other craft suffered severely.

SPECIAL SESSION IS LEGAL, SAYS GILLET

Meeting of Legislature Declared to Be According to the Law

SACRAMENTO, Oct. 3.—Throughout the entire morning a steady stream of members of both the Senate and Assembly swarmed to the office of Governor Gillett, all intent on learning whether or not the calling of the second special session was according to law.

VETERAN FIRE CHIEF.

Chief Kenny has been a member of the department for 35 years, and has fought his way to the top after many hard struggles. He is said by the members of the department as well as by a great host of friends, to be the man principally responsible for the department's high state of efficiency.

SEVEN BODIES RECOVERED.

Seven bodies have been taken from the ruins since the force of 300 men from the city street department began the work.

Fail to Recover Bodies Of Drowned Bluejackets

NEW YORK, Oct. 3.—Search was continued today for bodies of the United States sailors drowned Saturday evening when the cutter in which they were returning to their ship, the New Hampshire, was overtaken.

Doctors Testify on Condition of Ruef

Tell Court of State of Former Boss' Health and Deplore Present County Jail.

DYNAMITERS' ARREST MAY BE MADE TODAY

LOS ANGELES, Oct. 3.—Chief of Police Galloway stated at 1:30 o'clock that he expected an important arrest in connection with the dynamiting outrages would be made within the next few hours. He declined to say whether he thought it would be made here or in San Francisco. He said he had made no request of the San Francisco police department, knowing that they would follow all clues in that city without word from here.

HODGHEAD DENIES RUMOR.

"Until this morning I have heard nothing from any source of the rumored dismissal of the officials named," said Mayor Beverly Hodge, in his office in San Francisco this afternoon.

MADRID, Oct. 3.—The Liberal press today congratulates Premier Canalejas and interprets the generally peaceful character of yesterday's manifestations as demonstrating the democracy and liberality of his political policy.

Many Are Injured When Trains Collide

LAFORT, Ind., Oct. 3.—A Lake Erie and Western excursion train from Indianapolis was wrecked early today near here. The train came into collision with a Lake Shore freight and a number of persons were injured.

BALTIMORE, Md., Oct. 3.—That the action of the police department in placing an armed guard around police headquarters in an effort to resist the sending of a temporary board constitutes a resistance of the lawful authority of the state, is the belief of Governor Austin L. Crothers.

He declared today that he would take the necessary steps to put it down even to the extent of calling out the militia to enforce his orders.

RUINS RAKED FOR BODIES OF VICTIMS

Brewnome Relics Discovered by Workmen Employed to Search the Debris.

Five Men Are Suspected of Being Responsible for Dynamiting Times Building.

LOS ANGELES, Oct. 3.—The workers in the Times ruins continued throughout the night and today are searching the debris for more bodies of victims. Chief of Detectives Hammer photographed every twisted piece of steel brought from the wreckage with the purpose of later showing them to experts on explosives and determining, if possible, the kind of explosive used in blowing up the building. It is doubted if the bodies of any more victims will be recovered, as it is thought they have been practically consumed.

GOLD WATCH FOUND.

A gold watch in an excellent state of preservation was found in the ruins near the elevator shaft where most of the men are supposed to have lost their lives. The initials "F. C. L." are engraved on the back and a picture of a woman was found in the cover. It was identified as the property of Fred W. Llewellyn, a linotype operator, who lost his life when the floors gave way. The dial showed that the watch stopped at 1:08 o'clock—eleven minutes after the explosion occurred. The watch was taken out of a small pocket of a piece of burned trousers.

GRUESOME RELICS.

A nickel watch with a gold chain attached was found near the center of the building. It was blackened and melted out of shape. No one could identify it as belonging to any of the men whose bodies still are unrecovered.

The last three bodies recovered yesterday were taken from beneath a mass of twisted iron, where the elevator was once. All were charred and little remained except the torso.

The only bodies positively identified are those of J. Wesley Reeves and Harry L. Crane. The other bodies are burned beyond recognition and the identity of the others probably will never be known.

SUSPECT FIVE MEN.

The police believe that five men are responsible for the placing of the bomb that wrecked the Times building for the time bomb found under the Zehandelaar home and who made the formal machine found at the home of General Otis.

According to the detectives, five men were seen loitering near the home of Zehandelaar Friday afternoon. Two men, it is alleged, appeared and casually inspected the premises. Later they were joined by three others, and the five held a short conversation and left, going in different directions. A person living in the neighborhood is said to have noticed the men, and later when the bomb was found, notified the officers. It is said the officers have a fair description of the men and every effort is being made to trace their movements.

POLICE WORKING HARD.

It is believed by the police that the men planted the explosives at the Times office, at General Otis's home and at Zehandelaar's within a period of an hour Friday night.

The entire police force is working twelve hours a day and will be working on this schedule until conditions become normal.

Detainees are kept in reserve at the central police station and two motorcycle officers are held on duty to answer emergency calls. Everything is being done to maintain order and protect property.

General Otis again inspected the wrecked Times building today. He was accompanied by two officers in plain clothes, who kept close to him.

OTIS DEPLORES LOSS OF HUMAN LIFE ABOVE ALL

LOS ANGELES, Oct. 3.—General Harrison Gray Otis, editor-in-chief of the Times, has issued a statement regarding the disaster in which the building occupied by that paper was destroyed and many lives were sacrificed. He said:

"More than all else do I deplore the sad loss of life. I, with my co-owners in the Times property, can endure the physical loss which the destruction of the building involved with its expensive plant of modern printing machinery and all necessary accessories of an up-to-date American newspaper.

"We can stand this loss with comparative complacency and with the courage and endurance of men who know what it is to meet the ordinary disasters of business life. But we are overcome with sadness by the fact that so many of our loyal and faithful workmen were slain by the hands of conspirators and assassins, for this heinous deed was, in fact, an act of assassination.

CAN'T RESTORE LIFE.

"We can repair the physical damage done and restore the great property destroyed, but we can not restore life taken away. And this is the great burden which weighs

Photographs of the Los Angeles Times building taken shortly after the explosion which wrecked the structure and set it on fire, killing 21 men and damaging property worth \$500,000.

SEARCH FOR DYNAMITERS LEADS POLICE TO OAKLAND

Authorities Believe Persons Who Bought Powder at Giant Used It to Destroy Times Building; Three Men Concerned in Purchase

The latest information to reach the police of Los Angeles in their efforts to find the men responsible for the destruction of the "Times" is of the most significant character and appears to point directly to the persons who on September 23 purchased from the Giant Powder Company a plant located in Contra Costa county, near Oakland, five hundred pounds of 80 per cent gelatine dynamite. That explosive is rated by the experts as exceptionally powerful and dangerous.

SHIPPED IMMEDIATELY.

It is known to the police that the explosive in question was shipped to Los Angeles immediately after it was purchased and it is thought this was used to blow up the Times. An excellent description of the men who bought it has been furnished the local police by the officials of the powder company. It is believed the description is sufficiently detailed to make possible the early location and arrest of the perpetrators of the outrage.

The chief of police of Los Angeles is firmly of the opinion that the giant powder purchased by the persons under

supicion was utilized to destroy the "Times" building and plant, and his theory is strengthened by facts which were brought to light yesterday and today. What is considered by him as strongly corroborative circumstantial evidence to that effect is the fact that the dynamite found at the residence of F. J. Zehandelaar bears a blue rubber stamp label reading "80 per cent, Giant Gelatine Powder Company, Giant, Cal., September 23."

IDENTIFIES DYNAMITE.

Frank Roller, superintendent of the Giant Powder Company's plant, identified the dynamite by a telegraphic description which was shown to him last night at his home in this city. In identifying the dynamite he made the following statement:

"The only 80 per cent gelatine dynamite was manufactured in several months ago. It was made by our men about September 20th according to my best recollection. It was made on an order from our San Francisco office to be delivered to the launch Peerless and, in accordance with this order, it was delivered to men who came to the Peerless to our plant at Giant."

"It was a special order as we have few orders for 80 per cent gelatine dynamite. The order was for 500 pounds. It was made with our label as follows: '80 per cent, Giant Gelatine dynamite, Giant Powder Company, Giant, Cal.' It was put on the cartridges with blue inked rubber stamp pressed onto the cartridges lengthwise. The date, September 20th, may have been stamped on the cartridges also. I could determine that by referring to my books and interviewing the men who made up the order."

"It was then packed into 50-pound cases. About seventy-eight or eighty cartridges were packed in each box. It is one of the highest power explosives that we make."

TO GO BY LAUNCH.

"At the time the order came in and it was stated to me that the shipment was to go to Auburn by launch. I thought it rather strange, as it could have been shipped to Auburn by train much quicker and as cheaply as by launch. There were about ten cases in the shipment, an easy load for the launch."

"William Morris, presumably a Spaniard, A. J. Bryson, who claimed to be an Auburn land owner, and a third man, names unknown, and whose complete description is not so accurate, owing to the minor part he played in the purchase of the dynamite are the persons who carried on the transactions at the powder company's plant. Their names or aliases, and descriptions, were furnished the Los Angeles police by the salesman at the powder plant who supplied the explosive. The latter also furnished the information that the explosive was taken from the powder company's wharf in a launch. The launch had inscribed on its bow the name 'Peerless.'"

The owner of the Peerless, according to the story told by the two buyers, was one Leonard, but it is believed by the powder company's employees that the name was assumed by Bryson, or that it may be the name of the third man, of whom only a partial description has been obtained.

MOORED AT SAUSALITO.

The men stated that the launch Peerless was moored at Sausalito. They also stated that the dynamite was to be used

to blow up tree stumps on a ranch at Auburn, and Bryson claimed to be connected with the "Bryson Construction Company at Sacramento," by these facts have been disputed by the investigation. Other statements made by the two men have since been disproven.

Bryson gave his address as A. J. Bryson, Rural Free Delivery, Box 4, Route 1, Auburn, but the officials of Auburn who have been interviewed by the officials of the powder company, claim that such a man is known in that town and that no such mail address could be found.

Morris gave his address as 2410 Mission street, San Francisco, but the powder company investigators claim that no such man could be located at the address nor had any such man resided there.

FIVE BODIES FOUND.

In the meantime, as the police and public unite in their efforts to chase down the perpetrators of the outrage, three hundred men are digging for the bodies of the unfortunates who met their death in the wrecked building. For more than thirty hours the efforts to locate the remains have been incessant. Five of the bodies were supposed to be buried beneath the tons of debris five feet removed.

Survivor Believes Many Men Fell Down Elevator

LOS ANGELES, Oct. 3.—Pinne down by tons of twisted steel girders, a number of bodies were found early today by the workmen engaged in removing the debris from the basement of the wrecked Times building.

The situation was found to be such early this morning that it was impossible to make any progress in recovering the bodies, and a steel cage will first have to be placed in order to lift the heavy material away.

FALL INTO SHAFT.

It is believed that further investigation will bear out the theory of S. W. Crabb, foreman of the cooping room, who in making his escape the morning of the disaster, fell down the elevator shaft and only got out after having been severely burned. Crabb said the bodies were a number of bodies at the bottom of the shaft, as others like himself had tumbled that way.

FELL DOWN SHAFT.

"In the rush for the 'A' and 'B' Crabb, I noticed J. C. Gallher, Cui Salada, Harry Flynn, E. A. Jordan, W. G. Johnson, E. L. Carless and Fred Llewellyn running to the elevator. I am almost sure they went down the shaft to the bottom and that their bodies will be found in that section of the building."

While the police are reported to be working on various clues in regard to the dynamiting, and the disaster is a general topic of conversation, a measure of calmness prevails.

The police reserves, however, are held ready in case of any upward event. The disaster was referred to from many of the church pulpits yesterday.

Unions Take Issue With the Governor

SAN DIEGO, Oct. 3.—Members of San Diego Typographical Union No. 221 at their meeting yesterday adopted resolutions, which say:

Knowing that the nation today is filled with horror at the recent calamity which has befallen the workers on the Los Angeles Times and realizing also that the responsibility for such accident or crime, whichever it may be, is laid at the door of union labor generally, been as the Times management is bitterly opposed to the principles which are so dear to the hearts of every good union labor man we, as union laboring men, members of an honorable profession, and pro-

SLEUTHS WORK ON STRONG CLUE

Clerk Who Sold Men Large Quantity of Explosive Describes Them to Police.

Heavy Reward Offered for Apprehension of Fiends Spurs Police to Renewed Efforts.

SAN FRANCISCO, Oct. 3.—Bruce McCaul, chief invoice clerk of the Giant Powder Company consolidated, said today that he could identify the three men who purchased 500 pounds of gelatine dynamite from his company September 23. The man who paid for the dynamite at the company's office in San Francisco gave the name of A. J. Bryson, and, according to McCaul, his description tallies with that of the man who gave the name of Leonard at the powder works when he called for the explosive. Bryson on his visits to the local office of the company was accompanied by a person giving his name as William Morris, an unknown companion.

MEN OF BREEDING.

McCaul said today that the men impressed him by their speech and clothing as being well bred. Bryson wanted 85 per cent dynamite, saying he would use it to clear his ranch near Auburn of stumps. McCaul tried to induce him to take an explosive of less strength, but the purchaser said if he could not get 85 he wanted 90 per cent gelatine dynamite. McCaul said that a few days later Morris came for the order on the works for the explosive, telling him at the time that it would be taken away in a launch which belonged to a man named Leonard of Sausalito. McCaul then telephoned to the plant to deliver the order to the launch Peerless. He was later informed that this had been done.

MEN ACT STRANGELY.

McCaul said that the men acted strangely but he did not consider it unusual that they should be purchasing the dynamite, as they showed considerable knowledge of the explosives.

According to McCaul, Bryson weighs about 180 pounds, is about 30 years of age, with sandy complexion, smooth shaven, heavy face and a deep-set right eye which bore the appearance of having been flattened out. The other two men were younger than the leader of the party. Morris is of swarthy complexion and looks like a Spaniard, with regular features, and has brown eyes, his flesh is drawn tightly over the nostrils. He is about 25 years of age.

THIRD MAN DARK.

The third man, who did not show much interest in the proceedings is dark and smooth shaven and about 28 years of age. Acting Captain of Detectives Ryan said today that he had received no communication from Los Angeles in regard to the purchase of dynamite here and that he would not take any action until he heard from the officials of the southern city.

WOMAN CHARGED BY FURNITURE DEALER

SAN FRANCISCO, Oct. 3.—Judge Conlan today issued a warrant for the arrest of Mrs. Annie Wood, charging her with obtaining goods under false pretenses, on complaint of P. B. Pope of the Pope Furniture company, 819 Ellis street.

According to the allegations Mrs. Wood represented to the concern that she was the heir of her brother who had left her \$100,000, that she had \$5,000 in the Marine Bank of Sacramento and \$20,000 in property here. On the strength of these representations she obtained furniture to the amount of \$2400.

GOLD DUST
Reaches Dirt Everywhere

The ease with which you can clean everything by using **Gold Dust** Washing Powder is immortalized in the saying: "Let the **Gold Dust** Twins do your work."

Nothing has ever been invented that attacks dirt and grease like **Gold Dust**. It removes every vestige of dirt and grease, and is also a positive disinfectant.

Use **Gold Dust** in the kitchen for washing dishes, crockery, glassware and pots.

Use **Gold Dust** in the bath-room for cleaning bathtubs, washbowls, sinks, pipes and metal work.

Use **Gold Dust** in the laundry for softening hard water and washing clothes.

Use **Gold Dust** for scrubbing floors, doors and woodwork and in every form of housecleaning.

Use **Gold Dust** for cleaning refrigerators, sterilizing milk cans and dairy utensils, for cleaning silverware, oil cloth and stove tops, for cleansing brooms, combs and brushes.

Use **Gold Dust**—in fact—for any purpose for which soap or any other cleanser is ever used.

Use **Gold Dust** for washing clothes and dishes, scrubbing floors, cleaning woodwork, oil-cloth, silverware and tinware, polishing brasswork, cleaning bathroom pipes, refrigerators, etc., softening hard water and making the finest soft soap.

Do not use Soap, Naphtha, Borax, Soda, Ammonia, or Kerosene with **Gold Dust**. **Gold Dust** has all desirable cleansing qualities in a perfectly harmless and lasting form. The **Gold Dust** Twins need no outside help.

STEINBERG'S SHOE STORE, 962 Washington St.

ENORMOUS REWARD IS NOW OFFERED FOR DYNAMITERS

EXPLOSIVE BOUGHT ACROSS BAY IS ALLEGED

(Continued from Page 1)

Work of clearing away the wreckage of the dynamite explosion at the Times building has been identified by J. Westley Brown, private secretary to Assistant General Manager Harry Chandler of the Times, and Elmer Frink, one of the line operators. All the bodies of the dynamite operators, to be recovered were found in the cellar pit directly under where the store was stood which led down into the business office of the newspaper. All the rest of the dead and injured were found in the rear of the alley where the explosion occurred.

BRICKS CLEARED AWAY

The dynamite in this section of the city was found to be a very rare kind of brick, made in the city of Los Angeles, and was found in the cellar of the Times building. The dynamite was found in the cellar of the Times building, and was found in the cellar of the Times building. The dynamite was found in the cellar of the Times building, and was found in the cellar of the Times building.

IMPORTANT CLEW

Chief of Police Callaway said at his office today that he had a very important clue in the case of the dynamite explosion. He said that he had found a very important clue in the case of the dynamite explosion. He said that he had found a very important clue in the case of the dynamite explosion.

2 POWDER BUYERS KNOWN GOOD DESCRIPTION IS GIVEN

The following is a description of the three men who purchased at the Giant Powder Company's office in San Francisco 500 pounds of dynamite which has been identified by the police as identical with the dynamite used in the construction of the internal machine found beneath the residence of F. J. Zechander of Los Angeles.

WILLIAM MORRIS—Complexion swarthy, apparently a Spaniard, fairly good talker, good eye of brown color; dressed in a blue sack suit, straight nose, height 5 feet 5 1/2 inches; wore derby hat, white winged collar; flesh drawn tightly about the nostrils, age about 25, may be a trifle older, smooth shaven.

A. J. BRYSON (also Leonard)—Of stout build and looked very much like a college boy, weight 190 pounds; about 30 or 32 years of age, sandy complexion, smooth shaven, broad face, one of his eyes apparently had been injured, as bone over eye had been flattened out so that injury was very noticeable; features large, wore a derby hat and talked good English. Talked about having used giant powder many times in the country.

UNKNOWN THIRD MAN—Smooth shaven and of dark complexion. Did not exhibit much interest in what happened in the powder's office. Had a copy of the Sacramento Bee in his pocket. Appeared to be a good talker, about 5 feet 11 inches tall and about 28 or 30 years of age.

The man who paid for the dynamite at the company's office in San Francisco gave the name of A. J. Bryson. The man who signed receipts for the dynamite at the company's works at Giant, Cal., gave the name of Leonard, but his description is identical with that of Bryson.

Shovelmen many of the victims were blown to pieces by the force of the explosion. The bodies of the victims were found in the cellar of the Times building. The dynamite was found in the cellar of the Times building, and was found in the cellar of the Times building.

No bodies were found near the explosion, and they also will be useless in either the coroner or relatives of the dead to identify the victims. The coroner's office is now investigating the case. The coroner's office is now investigating the case.

DINKLESPIEL COMES TO LIFE AT THE ORPHEUM

MABEL VAN BUREN, in "Dinkelspiel's Christmas," at the Orpheum.

"Mein Lieber Loos" arrived home to spend Christmas with the family. The day to the outlook of two big audiences at the Orpheum. Loos is the prize of Dinkelspiel's heart just as the old patron is the friend of the masses who have seen pictures and stage portraits of him for months and years. George V. Loos, a slight sketch Dinkelspiel's Christmas was a royal welcome yesterday. The (this is full of the happy outlook on life and the happier way of speaking it that characterizes anything Hobbs writes. The humorist gets a whole lot of out of human nature and is a good critic to keep it to himself.

The story of "Dinkelspiel's Christmas" takes you into the life of the old gentleman on Christmas eve. Loos is coming home after two years of commercial traveling and the old folks have bought him a marriage license to wed his old sweetheart as a Christmas present. Loos arrives and brings his wife and baby. He has wed secretly. The old folks at first refuse to recognize the former chorus girl their son has married but the baby reconciles them and it all ends happily. Loos and Laurence in "The Piano" have a lot of rapid fire talk music and nonsense that struck the audience. I really enjoyed it. Loos and Laurence in "The Piano" have a lot of rapid fire talk music and nonsense that struck the audience. I really enjoyed it.

DENIES SAYING LABOR MUST PROVE INNOCENCE

Governor Gillett Declares That Statement Attributed to Him Is False; Not Likely to Issue State Reward

SACRAMENTO, Oct. 3.—Although he is looking into the matter, it is not likely that Governor Gillett will issue a state reward for the capture of the persons who are guilty of dynamiting the Times building at Los Angeles.

The Governor's published remarks attributed to him by coast papers which made him say that labor would be considered guilty of the dynamiting of the Times building until it had proved itself innocent.

"What I did say," he declared, "is that labor unions will be blamed for it unless they make every effort possible to cause the arrest of the parties guilty. This the unions will do, as is shown by their action in offering rewards for the arrest of the guilty persons."

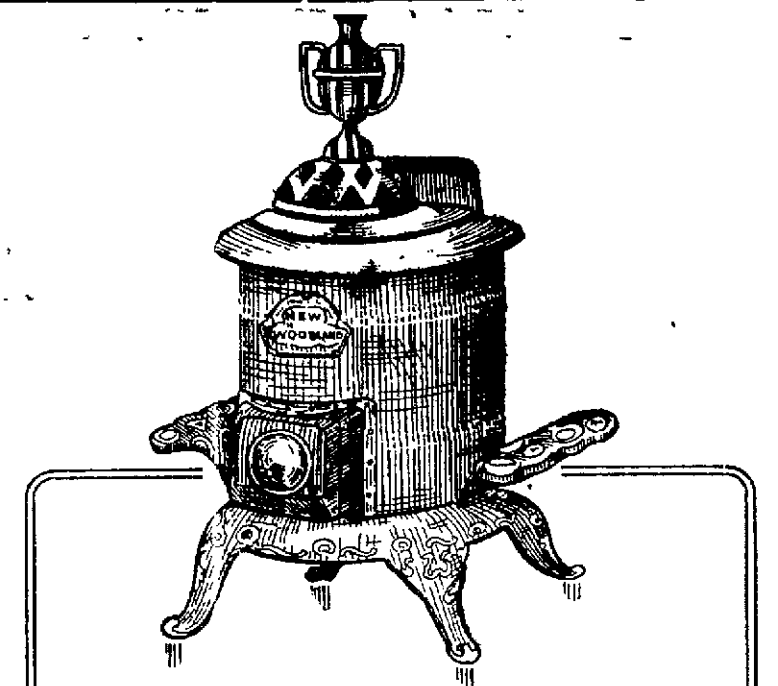

Dynamite Found Near Gas Plant in Los Angeles; Detectives Begin Investigation

LOS ANGELES, Oct. 3.—Chief of Police Callaway today announced that he had found a very important clue in the case of the dynamite explosion. He said that he had found a very important clue in the case of the dynamite explosion. He said that he had found a very important clue in the case of the dynamite explosion.

Spare No Money to Find Fiend, Says Bell

LOS ANGELES, Oct. 3.—"Spare no money," declared a Democratic nominee for Governor today, "in the search for the dynamite fiend."

I was in the interior of San Bernardino county when I heard the report of the terrible tragedy at Los Angeles. I felt that it was a tragedy that should be a warning to all of us. I felt that it was a tragedy that should be a warning to all of us. I felt that it was a tragedy that should be a warning to all of us.

QUAKER CITY TO HAVE CHAMPIONSHIP SERIES

CINCINNATI, Oct. 3.—The National Quaker City Athletic Association today announced that it had decided to hold a championship series of games in Quaker City. The series will be held between the Quaker City team and the Philadelphia team.

Body of Unidentified Man Found in Tank Car

TRINIDAD, Colo., Oct. 3.—The body of an unidentified man was discovered today in an oil tank car on a Colorado Southern freight train between this city and Trinidad. The car was out of control and an inquiry will be held today.

'Peerless' Not Real Name of the Launch

SAN FRANCISCO, Oct. 3.—It has been learned that the name "Peerless" on the launch which on Tuesday dynamited the powder works at Giant was not the real name of the little craft. The aluminum letter spelling the name "Peerless" was put on the launch before the launch was used for the dynamite.

RECENT ACTION OF FREEHOLDERS

Members of Chamber of Commerce Claim They Were Snubbed.

Upon a report from one of its members that the Board of Freeholders had made provision for a sum of \$5000 only for an entertainment fund, the members of the progress and prosperity committee of the Chamber of Commerce appointed a subcommittee to take up the matter with the board before its final adjournment. Owing to the exertion of the commercial bodies, the board finally agreed to raise the amount to \$12,000.

The committee reported last night that its efforts to introduce a resolution favoring the levying of a variable tax not to exceed 5 cents on the \$100 in any one year had been met with scant courtesy. H. S. Henion, the chairman of the committee, said that the board of Freeholders had not only refused to consider the proposition but had also stipulated that they be given just five minutes in which to state their case. He said that Elliot was always against any proposition that would connect the city with the city council. The report increased the committee and they determined to go in a body and present the matter to the board, adding, however, that they would not be given more than five minutes in which to state their case.

The board was on the point of adjournment when the crowd of business men entered, but they were not given more than five minutes in which to state their case. The speakers chosen were A. A. Denison, secretary of the Chamber of Commerce, and D. E. Perkins. Denison presented the following resolution:

THE RESOLUTION:

"Whereas, the Board of Freeholders, preparing the charter of the city of Oakland, which shall constitute the organic law for many years to come, have not considered it of sufficient importance to place this city in the forefront and among the cities of like population in the matter of creating a publicity and entertainment fund, commensurate with the advantages and needs possessed by this city; be it therefore

"Resolved, That the progress and prosperity committee of the Chamber of Commerce does hereby petition the said Board of Freeholders to reconsider this most necessary feature of our city life. In their report we ask that the provision be set aside for this fund shall depend upon the discretion of the Commissioners of the city of Oakland, and that they be empowered to establish a fund of \$10,000 on the taxable property within the city of Oakland."

H. S. Robinson of the Board of Freeholders said that he was acquainted with the Chamber of Commerce and that he was not in a position to provide for it, except in an amendment to the Los Angeles city charter which set aside a sum of \$5000 for the entertainment fund. He said that the Board of Freeholders had more than done its duty by Oakland. Councilman A. H. Elliot stated that the provision for a larger fund would undoubtedly kill the charter, as the people would refuse to vote for it, especially the "mossbacks," who carefully figure out the tax rate and were after what they call a "cheap" government.

ELLIOT WRONG.

The progress and prosperity committee then held a meeting and appointed a committee, consisting of E. Bull, W. A. Wann, Dr. E. N. Clark, Fred Reed, D. E. Perkins and C. A. Milligan, to draw up a petition asking the board to take up the matter.

That Councilman A. H. Elliot is wrong in his statement that the Board of Freeholders should insert in its provisions the levying of a special tax providing for a sum larger than the \$12,000 they have allowed for public celebration and conventions was the statement of Mayor Mott.

"I know of no measure that would be more popular than this," he said. "The tax would be very little on any one property holder and would take away the burden from the shoulders of the few who have heretofore contributed the whole amount. It would include the big property owners who never contribute a cent to those affairs, though their property benefits immeasurably by the expenditure. Another point in favor of it is that the big railway corporations, which now get out of contributing on the ground that if they do it for one community they would be obliged to do it for all, would be obliged to contribute."

"By levying the amount of the tax to the discretion of the council the levy can be made in accordance with the demands upon the city's hospitality. When big conventions are held, as in the case of the Panama-Pacific exposition, a tax of only half a cent would be necessary, while other years it would be more. The five-cent tax would prevent any undue taxation."

MULTIFARIOUS ARE THE PLANS OF THIS COMPANY

Articles of incorporation for a new company, which will be known as the Berkeley Butter Company, were filed in the office of County Clerk Cook this morning. The object of the new corporation is to carry on a general creamery business and in general deal in butter, milk, cream, eggs and other dairy products, and to import, export, buy or sell, and generally deal in all kinds of merchandise and property of all descriptions. The amount of capital stock is \$25,000. The three directors named are E. W. Frame, Adolph Beck and C. P. Jorgensen.

250 MARRIAGE LICENSES ISSUED DURING MONTH

County Clerk John P. Cook reported today that during the month of September 250 marriage licenses were issued by him, while in the superior court 23 decrees of divorce were granted and one marriage was annulled.

During the corresponding month of 1909 228 marriage licenses were issued and 27 decrees of divorce were granted, and the latter by 2.

FAVORITISM IS CHARGED AGAINST PIGEON CLUB

Board of Supervisors Hear Arguments Pro and Con Proposed Appropriation; Contract for Water Plant Awarded

When the Board of Supervisors opened its session this morning there was let loose a flood of documentary and verbal evidence for and against the granting of an appropriation of \$250 to the California Pigeon Club of Alameda County to aid in the holding of an exhibition of pigeons in this city. Dr. W. J. Smythe, president of the club, and T. R. Quayle, secretary of the Pigeon Club, represented that organization, and Dr. C. M. Selfridge and L. L. Campbell appeared in protest to an appropriation of the sum named.

The latter contended the money should not be awarded the club on any ground. He said that he had shown exhibits to who were members of the organization over the outside public in the awarding of prizes at former exhibitions held under the club's auspices. On motion of Supervisor Kelley, seconded by Supervisor Bridge, further consideration of the matter was laid on the table.

WATER PLANT BIDS.

Bids were opened for the construction of a water plant in Murray township, and the contract was awarded to O. W. Wells, the lowest bidder. The plans and specifications contemplate the laying of a pipe line and the constructing of tanks along certain roads giving access to Livermore and the adjacent country. The estimated cost of the work, as stated by the county surveyor, was \$125,000. The bid of O. W. Wells is \$97,500. The first of the faithful performance of the work, and accompanied its bid with a certified check in the sum of \$1000. Ninety days is given for completion of the plant.

Other bidders were Russell & Mathieson, \$10,934; Smith Construction Company, \$11,404.70; L. L. Page, \$11,974; L. W. Murdoch, \$11,745; Robert Dabolt Jr., \$12,520; Hyde & Hodgers, \$12,800; L. D. & Wiley, \$12,800; George Stoddard, \$12,778.86; and F. C. Roberts, \$12,768.

AWARDED CONTRACTS.

W. L. Gilliam was awarded the contract for repairing the small bridge across Calaveras creek. His bid is \$34,650. The contract was awarded to the lowest bidder and allowed for completion of the work. Other bidders were: J. J. H. Barb, \$11,600; Russell & Mathieson, \$12,000.

ACCIDENTAL SHOT CAUSE OF DEATH

Berkeley Boy Fatally Hurt While Hunting in Foothills.

Weakened by the loss of blood and the shock of having accidentally discharged a shotgun into his leg while out hunting, a 17-year-old boy of 2805 Berkeley street, Berkeley, died at the East Bay Sanatorium here last night after the physicians had tried in vain to save his life. The boy had been out hunting with his father, Ernest Costa, who lives in the same house, when the accident occurred. Young Costa and his brother, A. P. Costa, had been shooting. Supposing the boy was dead, they went to look for him and found one of the birds still alive, and struck its head against the gun to kill it, accidentally discharging the weapon in this manner. The boy was hit in the leg and the bullet passed through the bone. The wound was fatal. The boy was taken to the East Bay Sanatorium, where he died last night. His father, Ernest Costa, was the son of Mrs. Mary Costa.

SAN FRANCISCO SOCIETY

SAN FRANCISCO, Oct. 3.—The handsome home of Mr. and Mrs. E. R. Lillenthal was made beautiful yesterday for one of the handsomest weddings in many years. The wedding of Miss Sarah Lillenthal and Dr. Harry Well took place at high noon.

The bride's gown was a magnificent creation of white embroidered chiffon over white satin, combined with rare old lace that had been in the family for generations. Her veil was held in place by a wreath of orange blossoms and the bridal bouquet was a graceful shower of lilies.

The bride's only attendant was her sister, Mrs. Milton Esbery, who was handsomely gowned in an imported frock of blue satin, veiled in green chiffon.

Mr. and Mrs. L. M. Kaiser left today for a two months' trip through the East. They were accompanied by their two sons.

Mrs. E. J. Ives has issued invitations for the wedding of her daughter, Miss Florence Ives, to Othello Schreiber, which will take place at 4 o'clock on the afternoon of Wednesday, October 12, at her residence, 2226 Washington street. Mrs. Henry H. Crocker has deferred her marriage in order to be present at the marriage of her sister.

San Francisco's creme de la creme, under the leadership of Mrs. William H. Crocker, who is chairman of the San Francisco Society for the Prevention of Tuberculosis, has leased the Chutes for the afternoon and evening of Wednesday, October 12, to make the entertainment a huge success. Among the guests will be Mrs. Crocker, Mrs. Charles Jesselyn, R. D. Gilwin, George Monroe Pinchard and John F. Merrill.

RETIRE CAPITALIST DIES IN BERKELEY

BERKELEY, Oct. 3.—John Carter, 83 years of age, a retired capitalist, living at 1229 Alcatraz, died at his residence this morning. Dr. R. M. Riley was called, but when he arrived he pronounced the aged man dead.

Carter was a pioneer of Berkeley, having come here from Ireland when a young man. He is survived by a wife. The inquest will be held Monday, October 10, in the parlors of James & Niehaus, undertakers.

250 MARRIAGE LICENSES ISSUED DURING MONTH

County Clerk John P. Cook reported today that during the month of September 250 marriage licenses were issued by him, while in the superior court 23 decrees of divorce were granted and one marriage was annulled.

During the corresponding month of 1909 228 marriage licenses were issued and 27 decrees of divorce were granted, and the latter by 2.

LEADS MEN WHO WANT HOME RULE

JOHN REDMOND Irish parliamentary leader, who is visiting America.

JOHN REDMOND Irish parliamentary leader, who is visiting America.

Champions of Ireland Declare Prospects for Cause Are Bright.

NEW YORK, Oct. 3.—Four Irishmen who champion their country's cause in parliament—J. E. Redmond, P. O'Connor, Joseph Devlin and Mr. Boyle—arrived here on the steamer "Brooklyn" from Ireland. They have been sent by the National party to attend the biennial national convention of the United Irish League, American branch, to be held in New York. The Irish League is a political party of the Irish people, and its object is to secure the independence of Ireland.

DEMONSTRATE MACHINES.

The county supervisors appointed thirty men to demonstrate the voting machines, extending from October 14 to November 4, at a salary of \$100 each. H. B. Travis was appointed superintendent of the demonstration. The machines are of the Smith type, and are being demonstrated in the county clerk's office.

ITALIANS TO AID SOCIETIES Plan to Join in Dis- covey Day Observance; Queen Contest Lively.

A big public meeting will be held next Wednesday night, in Judge Mortimer Smith's court room at the City Hall to complete final arrangements for the Discovery Day celebration and carnival to be held on Lake Merritt October 12.

The various committees will meet with representatives of the Merchants' Exchange, Chamber of Commerce, Tri-City Rotary Club and civil and social organizations to take up such matters as will aid to the success of the great day.

Many Italian societies will participate and help to make the day successful. C. Ghigliotti, manager of the Oakland branch of the Banca Popolare Italiana and former president of the Columbus Italian Society, will deliver an oration in Italian. This will be one of the features of the interesting literary program which will be given on Adams Point, which portion of the lake shore has been chosen because of its great beauty and convenience. The fact that Columbus was an Italian makes this oration peculiarly appropriate.

Miss Jennie Ratto, who was entered Saturday as a candidate for Queen Italia, who will be ruler of the day, is a girl given enthusiastic support. Two candidates to oppose her will be announced by interested societies and votes are already being cast for them.

Additional members added to the different committees are as follows: Judges committee—Harry White, James J. Hahnan, Charles A. Lewis. They will have charge of the Red Men feature, which consists of the welcome given Columbus at his landing at San Salvador. John J. Rigney is chairman, and will open the contest. Reception committee—Judge John W. Steaton, Frank Cerlet, John Mullins, James P. Montgomery, Vincent A. Dodd, John Jordan.

Conservatives Control Constitutional Session

New Mexicans Convene to Write Governing Statutes; Prohibitionists in Minority.

SANTA FE, N. M., Oct. 3.—New Mexico's constitutional convention convened today in the former territorial capitol building. The session was opened by Governor Thomas C. Carron, called the convention to order and after Rev. Jules D. Raches, chaplain of San Miguel Church, the oldest church in the United States, had asked for seven gifts of the Holy Ghost to descend upon the 100 delegates the oath of office was administered by Judge John R. McFee of the New Mexican Supreme Court. Charles Spless of Las Vegas was elected president. His selection signified that the conservatives had control of the convention and the initiative and prohibition will not be written in the constitution.

TIRE THIEF ARRESTED BY COMEDIAN MAX DILL

SAN FRANCISCO, Oct. 2.—Max Dill, the little man in the funny coat and bow tie, was conferring with his manager, Nat Magner, in a house opposite the Princess theater Saturday night when his attention was attracted to a man taking off the extra tire that was strapped to the outside of Dill's automobile.

Dill chased the thief down Ellis street, relieved him of the knife with which he had cut the straps of the tire and then took him to the police station.

There the thief was arrested, and Dill, the comedian, was booked for larceny. The prisoner gave the name of Fred Reed. Dill will appear before him in the police court this morning.

Faculties Plan to Become WESTERN CARUSO

BERKELEY, Oct. 3.—Members of the faculty of the University of California are to take up singing in the future, according to the announcement made yesterday by Professor William Satchell, head of the botany department. It is the intention to hold singing assemblies, along the same line as the senior singing. These will be held at the faculty clubhouse.

A fund is being raised for the purpose of purchasing song books, and songs having a "legitimate" theme will be the favorites.

RICE CHARGES FLORIST STOLE WIFE'S AFFECTIONS

Former Newspaper Man Declares William H. Cornwell Alienated Love of Spouse; Accused Man Jailed

SAN FRANCISCO, Oct. 3.—William H. Cornwell, a florist at O'Farrell and Powell streets, was arrested in the Maxx saloon yesterday afternoon by Detectives Sullivan and Drollette on complaint of Annie Rice, a former newspaper man in this city, and was charged with a felony. Cornwell is accused of alienating the affections of Rice's wife, Mrs. Cornwell, in the sum of \$1000. A warrant for Cornwell's arrest was issued by Police Judge Shortall, who fixed bonds in the sum of \$4000, or \$2000 cash bail. The complaint alleges a violation of section 268 of the penal code.

TWO CHILDREN.

Rice resides in Berkeley and has two little children. According to the information received by the police from Rice's wife, Mrs. Cornwell, in the early part of last May while visiting the latter's florist store to purchase an orchid. The police say that Mrs. Rice has subsequently lived with Cornwell in various apartments in the city, and during which time she has visited her home and children but once.

Cornwell's father was a major on the staff of King Kalakaua, and was a man of high social position. Cornwell was educated in Trinity school in this city, at Phillips Andover Academy, Massachusetts, and at King's College and School in London, England.

He was married eleven years ago on the island of Maui, and came to this city with his wife in 1906. He worked in city towns, and last fall came here and occupied a flat at 1144 Clay street. Last November Cornwell's wife mortgaged her property in Hawaii for \$3000 and gave Cornwell the money to invest in the florist business with John Sifers at O'Farrell and Powell streets.

After the meeting with Mrs. Rice, as well as the Wellington hotel, at the Monterey apartment and other places. The police allege that Mrs. Rice, who has an independent fortune, gave Cornwell \$1000 in cash on June 11 and has given him presents of jewelry and apparel.

COAT OF TAR AND FEATHERS IS FAVORED BY THIS JUDGE FOR BRUTAL HUSBAND

SAN FRANCISCO, Oct. 3.—Deplored the inhuman treatment and cruelty inflicted upon a girl bride by her husband almost immediately after marriage, Superior Judge Graham this morning, before granting a divorce to Florine M. Childers, roundly scolded her husband, George Prentice Childers, whom he asserted ought to be tarred and feathered.

"Scoundrels of this man's make-up," said his honor, "should be tarred and feathered, and it is too bad that nothing can be done with them. He has been the most reprehensible conduct of which I have ever heard. There surely ought to be some way to punish scoundrels of his ilk, men who dare go so far as to take such a girl of tender years as their wife and then a week after marriage attempt to sell her into slavery."

The testimony of Mrs. Childers, given in heart-breaking fashion on the witness stand, told of her marriage in December, 1909, and of her spouse's receiving \$500 from her father to engage in business, and \$100 to be given to her. And yet there was nothing to eat on Christmas day, and she claims on New Year's eve her husband came home intoxicated. A short time later, she says, he attempted to force her to take an auto ride with a strange man, and encouraged the latter to make love to her.

Also, according to the testimony, the husband tried to get her mother to buy her clothes, and finally, as her penniless mother was forced to borrow ten cents from a policeman to reach her parents in Oakland.

BRIDGES READY IN EIGHT MONTHS

The board of supervisors from the engineer's office of the United States Army, at San Francisco, signed by Brigadier General Charles E. G. B. Davis, in reply to a communication from County Clerk Cook requesting information as to the probable date upon which the three bridges crossing the estuary will be turned over by the United States Government to Alameda county.

The letter bears date of September 28, and states that the plans and specifications for the installation of electrical machinery on the three bridges have been prepared and forwarded to the headquarters of the army at Washington for approval. As soon as they are returned they will be printed and the work advertised for thirty days, after which the contract will be awarded and the work begun.

General Davis estimates that it will take from six to eight months to complete the work. Immediately thereafter, he states, the bridges will be turned over to the county.

War Department to Turn Them Over to County of Alameda.

A communication was received by the board of supervisors from the engineer's office of the United States Army, at San Francisco, signed by Brigadier General Charles E. G. B. Davis, in reply to a communication from County Clerk Cook requesting information as to the probable date upon which the three bridges crossing the estuary will be turned over by the United States Government to Alameda county.

COWELL RECEIVES NOMINATION AGAIN

STOCKTON, Oct. 3.—The Democratic congressional committee of the Sixth district met here today and for the second time nominated A. J. Cowell of Stockton as the Democratic candidate for representative in congress.

Henry Dawson of Fresno was nominated for that position at the primaries, but lost here today and the victory was discovered afterward that he was ineligible for admission to congress, not having been naturalized seven years. His then resigned to the committee, but the attorney general's office has rendered an opinion holding that the notice of withdrawal should have been filed with the secretary of state. The opinion does not question the validity of Dawson's nomination and therefore the congressional committee, which was appointed by him, is believed to be legally constituted.

Stockton Man Named Second Time as Candidate for Congress; Hawson Ineligible.

STOCKTON, Oct. 3.—The Democratic congressional committee of the Sixth district met here today and for the second time nominated A. J. Cowell of Stockton as the Democratic candidate for representative in congress.

Henry Dawson of Fresno was nominated for that position at the primaries, but lost here today and the victory was discovered afterward that he was ineligible for admission to congress, not having been naturalized seven years. His then resigned to the committee, but the attorney general's office has rendered an opinion holding that the notice of withdrawal should have been filed with the secretary of state. The opinion does not question the validity of Dawson's nomination and therefore the congressional committee, which was appointed by him, is believed to be legally constituted.

Sailor Loses Life While Trying to Assist Officer in Saving Woman From Water.

NEW YORK, Oct. 3.—While attempting to aid Edward Charles T. Her Blackburn of the battleship Kansas to save a young woman from drowning in the Hudson river today, a sailor, believed to be Eugene Audit, of the Kansas, was drowned. Blackburn and Audit jumped to the rescue when she missed her footing as she was stepping from a launch to the float, and with a scream pitched headlong into the water.

Blackburn reached the struggling woman and managed to swim with her to the float, where she was hailed ashore. Audit was caught in the swift current and it is supposed, was unable to breast it and was carried out into the river and drowned.

The young woman was taken by other members of her party to a waiting automobile and hurried away. Her identity was not revealed.

Pasadena Shows Big Gain in Population

WASHINGTON, Oct. 3.—Population statistics as enumerated for the thirteen census were made public today for the following:

Pasadena, Cal., 36,291, an increase of 21.74, or 22.2 per cent as compared with 1900.

Washington (Washington county), Pennsylvania, 13,778, compared with 7970 in 1900.

TOOK OVERDOSE OF STROCHNINE; RECOVERS

J. D. Foley, a laborer, residing at 617 Fifth street, took a dose of strochnine at an early hour yesterday morning for heart trouble, and though some mistake swallowed too much of the drug. He was rushed to the Receiving Hospital in a very serious condition, where heroic treatment saved his life. He was discharged and cured this forenoon.

MONEY GOES WITH LOSS OF MEMORY

Will Hart Is Locked in Hotel Room and Valuables Disappear.

Dual personality, the explanation presented so frequently to account for mysterious disappearances of men who have become involved in difficulties financial and otherwise, is not invoked by William Hart, recently of Los Angeles to explain his strange predicament. Hart is perfectly open and above board, and admits to the police that he does not know how he ended up in a room at the Overland House at First and Broadway. He did not seem pleased with the discovery of his predicament, and aroused the whole house in demand to be released from his peculiar prison.

THOUGHT HIM MAD.

Unable to understand the disturbance being raised in one of the rooms, people in the house concluded that a madman was locked into the room, and before using a pass key to open the door called Officer Tillotson to be ready in case of emergency. On opening the door Hart emerged from the room, greatly excited, and demanding to know how he came to be there.

No explanation being forthcoming, he accompanied Tillotson to the police station, where it was discovered that not only his memory of the past few hours was gone, but also a \$50 gold watch and all his money had departed. Hart has been rooming at the Pleasanton, and returned there after failing to obtain information as to his actions of his property.

CHINA NO LONGER IS MARKING TIME

Opening of Imperial Senate Records Another Forward Step.

PEKING, China, Oct. 3.—China took another forward step today when at noon the newly constituted Imperial Senate was opened by the regent, Prince Chun. In a brief address, Prince Chun said that the inauguration of a parliament, a constitutional government and he commanded the senators to labor for this consummation.

The Imperial Senate constitutes the second stage in China's development of a popular representative government. The first was the inauguration, a year ago, of the provincial assembly. The crowning event will be the establishment of a general parliament, promised for 1915.

RIGHT TO CHANGE AMENDMENT DISPUTED

(Continued from Page 1)

the constitutional amendment for which the present extraordinary session of the legislature has been called.

MANY OPPOSED.

Many members in each house are opposed to the amendment as it was passed at the last legislature. Others oppose the several methods suggested of amending it and others still are divided in their views as to how the desired change can be effected legally.

The Governor holds that the amendment of two years ago can be rescinded and another passed in its stead. The same view is entertained by Senator Curtin, the author of the measure. Caine is opposed to both, declaring that the amendment has already been in effect, passed before the people and cannot be rescinded. He favors the passage of another amendment and the placing of it and amendment No. 1 before the people and letting the latter determine which they want.

LEAVITT WOULD AMEND.

Leavitt of Oakland wants amendment No. 1 amended by the insertion of the words "Year ending this," and the placing on the ballot of a note explaining the correction.

Senator Willis declares that although he voted for the original amendment, all the people of his county (San Bernardino) are opposed to it.

A warm contest seems inevitable.

LUCKY LOTTERY TICKET IN DEAD MAN'S CLOTHES

BRUSSELS, Oct. 3.—A romance has just been unfolded in connection with the recent Brussels lottery. For some time the child prize of \$40,000 went unclaimed and the identity of the winner has just been established in a remarkable manner.

It appears that a young Belgian, aged nineteen, had purchased a ticket for the lottery, and shortly afterward he was killed while at work through a stone falling on him. A few days before the result of the lottery was announced he was buried, according to custom, in his Sunday clothes. Some weeks passed and no claimant came forward for the first prize. When the young man's friends remembered that he had a lottery ticket in the waistcoat pocket of his best suit, and an application was forwarded to the authorities for permission to have the body exhumed, the request was granted, and, as was expected, the winning ticket was found in the dead man's clothes.

His relatives are now claiming the money.

WOMAN HITS RIVAL ON HEAD WITH FRYING PAN

SAN FRANCISCO, Oct. 3.—Mrs. Mary Manning and Mrs. Prudence Lalouin lived respectively at 550 and 552 Ninth street, and in a quarrel which existed between them for some time.

Mrs. Manning was on the warpath this afternoon and in a quarrel with Mrs. Lalouin, struck her over the head with a frying pan. She was arrested by the police and booked for battery at the Southern station.

HIGH TAX RATE IS FIXED BY TOWN OF PIEDMONT

Trustees Decide Today Upon Levy Which Makes Total \$3.20.

RATE IS FOURTEEN CENTS HIGHER THAN OAKLAND'S

"Will Wake Up Captious Taxpayers," Comment of Mayor Craig.

The city fathers of Piedmont in the Hills fixed the tax levy this morning. For every \$100 of the \$1,500,000 assessed valuation, both Highlanders and Lowlanders alike will be obliged to contribute the sum of \$3.20 for the running expenses of the exclusive village. The complete levy as fixed is as follows:

City tax	1.50
Redemption of street bonds and interest	.50
Redemption of sanitary bonds and interest	.50
Redemption of school bonds and interest	.50
Oakland High school	.10
State and county	.10
Special school tax	.10
Total	\$3.20

The rate as fixed is 14 cents higher than that for the city of Oakland despite the fact that this city is paying for a large bond issue and millions in improvements.

"This will doubtless wake up some of the captious taxpayers of the 1100 acres which cover the area of our city," said Mayor Hugh Craig, after the meeting.

DANES GATHER FOR CONVENTION

Pour Into Fresno From All Parts of United States.

FRESNO, Oct. 3.—Delegates to the National Danish Brotherhood convention are pouring into Fresno today from all portions of the United States.

Today has been devoted almost exclusively to receiving the visitors and assigning them to the hotels and other stopping places. The morning program was marred by the failure of a train containing the grand officers and about 200 hundred delegates to arrive owing to a washout on the Southern Pacific south of Los Angeles.

The party, however, will likely arrive this afternoon and work will begin this evening.

EFFORT TO WARM BED FIRES LODGING HOUSE

Following a small fire at the Saddle Rock, caused by grease falling up an incense burner in a defective flue, the company No. 1 was hastily called to save the Pontine lodge house at 833 S. San Pablo avenue. A blanket wrapped around a gas heater in preparation to warm a bed was the cause of the latter fire.

The blanket was wrapped round the heater by Mrs. Teple who of Patro-man H. W. Teple. She was called from the room and the fire was discovered by lodgers.

Mrs. Teple returned in time to assist in extinguishing the fire and as slight damage amounted to about \$30.

Candidates for Foresters' Initiation Tonight Lack One of Numbering 100

99 WILL TAKE DEGREE WORK

Sixteen Women Constitute the Team; Leading Members to Attend.

Oakland Court, Independent Order of Foresters, will initiate ninety-nine candidates this evening in Woodmen Hall, 523 Twelfth street, where the degree work will be conducted by Mrs. J. P. Murphy first captain of the drill team of Companion Court, Golden Gate, No. 765, I. O. F., of San Francisco, with a staff of sixteen women who constitute the team.

Many of the leading Foresters of the bay cities will attend the session, which will be presided over by J. P. Murphy, high chief ranger of the Independent Order of Foresters of California. O. K. Brown, high secretary, D. J. Davis, D. S. C. B. Charles Thurston, D. S. C. B. and Edward Cameron past chief ranger of Seal Rock Court San Francisco, will be among the guests of honor this evening.

Oakland Court will present J. Mortimer and R. Cook with diamond moose heads for having received the largest number of members for the class initiation.

S. W. Dodson, State organizer for the Foresters, was successful in obtaining the majority of the members and it was through his enthusiastic work that the campaign for members was started in the court.

The ceremonies this evening will conclude with dancing.

MRS. J. P. MURPHY, first captain of the drill team of Companion Court, Golden Gate No. 765, I. O. F., who will confer degree upon a class of candidates tonight.

FIVE BADLY HURT IN AUTO ACCIDENT

Miss Anne Kelly Near Death as Result of Crash on Centerville Road.

As a result of an automobile accident on the Centerville road about 1 o'clock yesterday afternoon Miss Anne Kelly, a trained nurse, residing at 4288 Howe street, Piedmont, is now hovering between life and death at the Acropolis Sanitarium in Fruitvale and four others are more or less injured. The machine was driven by Dr. J. M. Shannon of 1155 Broadway, who immediately administered to the wants of the injured and saved the life of Miss Kelly by the use of artificial respiration.

FIVE INJURED.

The injured are: **KELLY, MISS ANNE**—Bruised about the arm and body and when picked up was bleeding badly from the lungs. She is believed to be suffering from internal injuries and her condition is considered serious. **HILL, A.**, attorney, from Eureka; bruised about the face and arms. **HILL, MRS. A.**, is crutches on her arms.

MORTON, MISS E. NICKS, manager of the Acropolis Sanitarium, badly cut about the lower limbs and suffering from many bruises all over the body.

SHANNON, DR. J. M., right knee badly wrenched and right thigh badly bruised. Neck broken and both wrists badly wrenched.

AVOIDS COLLISION.

The accident happened shortly after the party left the sanitarium for a little pleasure ride and as the result of an attempt on the part of the doctor to prevent a collision with a horse and buggy which had the right of way in the narrow roadway. The automobile was speeding along at about a mile a minute when it was overtaken by a buggy going in the same direction just ahead of him. He immediately slowed down the machine and prepared to pass the buggy at this point the driver of the buggy, for some unknown reason, brought his horse to a sudden stop, which gave little time for the party in the machine to make the proper turn.

STRIKE ROCK PILE.

In the center of the road was a large pile of rock which had been left there by the road department while making repairs and into this pile the doctor turned his machine to avoid the collision. The result was that the machine sank deep into the rock and collapsed. The machine itself went into the air and its occupants were thrown violently to the ground.

Miss Kelly was sitting between Hill and his wife in the tonneau, was thrown beneath the machine and was badly crushed. At first it was thought she had been killed, but upon further examination by the doctor a sprain of the spine and a critical respiration was immediately resorted to.

San Jose Doctor Killed by Auto

SAN JOSE, Oct. 3.—Dr. George F. Witter practicing physician, 30 years old, alighted from a T. N. street car in front of his home at Tenth and San Salvador streets late last evening and stepped directly into the path of a racing automobile driven by William Johnston a son of W. A. Johnston a well known attorney. Witter was knocked down and almost instantly killed.

The racing car was owned by the true life church, of which he was a member.

In the car with Johnston were Leo Foster and Arthur Starr of the Cleveland Star and the feeble car was driving so fast that they were unable to pass another machine when the accident occurred. According to the story, several other people had been in the car, but the driver believed all who intended getting out had crossed to the sidewalk. The car conductor estimated that the boys were traveling for miles an hour.

Philip Johnston, manager of the true life church, was not in the car and was pointed to the quick stop as proof of the assertion.

Coroner Kell is making an investigation.

Officials May Stop Grand Prize Race

NEW YORK, Oct. 3.—The board of supervision of Nassau county, Long Island, held a special meeting today to consider the advisability of cancelling the permit for the grand prize automobile race scheduled to be held over the Vanderbilt cup course October 13.

Notwithstanding the fact that a list of four dead and more than 2 injured incident to the Vanderbilt race, A. B. Patterson, general manager of the Long Island motor parkway, is authority for the statement that nothing but official interference will stop the grand prize race.

Several drivers booked to participate in the event have demanded more adequate policing of the course and tonight William E. Ekins, manager of the Long Island fields gave out the following message which he says Oldfield sent from Chicago:

"Withdraw my entry from grand prize race unless course will be guarded completely by troops. I am unwilling to risk my neck and car."

Oldfield follows with a severe arraignment of the management of the Vanderbilt race when he says, "I am not going to safeguard drivers and spectators."

Struck by Automobile And Fatally Injured

SAN FRANCISCO, Oct. 3.—Immediate attention of the Central Emergency Hospital where he had been calling on the chief steward on business, August Hohning a horse clipper, was run down by an automobile but a few feet from the station thrown to the sidewalk and fatally hurt.

He was carried in and placed on the operating table and treated for injuries to his back. The machine was No. 7281, but Hohning refused to have the owner arrested.

RAILROAD COOK DIES FROM SEVERE BURNS

SAN FRANCISCO, Oct. 3.—Nathan Touch, a cook employed at the 2041 Pacific Electric Company at Truitt who was severely burned several days ago died at the Southern Pacific hospital this morning.

FREEHOLDERS TO SIGN NEW CHARTER

Instrument Now Ready for Acceptance at Meeting Tonight.

With the work of framing the charter completed, the board of freeholders will hold their final meeting tonight in the rooms of the board of education and formally affix their signatures to the voluminous instrument. What few changes that remain to be made in the language of certain sections will be finished this afternoon.

The revision committee has been at work day and night on the corrections of the phraseology of certain sections and the first business of the meeting of the board tonight will be to hear the report which will undoubtedly be adopted in its entirety.

The committee has made no changes likely to affect the spirit of the charter. Its efforts being limited to grammatical errors, etc.

FIREMEN EXTEND VOTE OF THANKS

Department Members Pleased With Action of Board of Freeholders.

Acceptance of recommendations concerning the provisions regulating the fire department under the new city charter made by the members of the department to the Board of Freeholders was acknowledged by the sending of the following communication to the freeholders today:

"To the Honorable Board of Freeholders, Oakland, California:

"Gentlemen: At a meeting of the representatives of the several companies of the Oakland Fire Department September 22, 1916 the following resolution was unanimously adopted:

"Resolved That the sincere thanks of the members of the Oakland Fire Department are hereby extended to the Board of Freeholders for their action in the city of Oakland for the satisfactory action in their behalf regarding matters pertaining to this department."

Respectfully,
T. J. BRUNJES, Chairman
W. C. BARNES, Secretary

ALAMEDA SUED FOR \$500 BY ENGINEER

ALAMEDA, Oct. 3.—Summons were served on the city of Alameda today for a collection of \$500 alleged by Engineer Bannister to be due him for services rendered the city as consulting engineer.

Bannister was engaged by City Engineer I. N. Chapman to accompany him to the Mt. Hamilton region to make a survey of the water sources of the Bay Cities Water Company and after making a written report to the city, put in a claim for \$500 which the city turned down. Bannister is represented by attorneys A. T. St. Sure and Snook & Church.

Hear Moans; Think House Is Haunted

EDWARDSVILLE, Ill., Oct. 3.—Three families here successfully left the house in Edwardsville in which M. B. Bannister lived and near which he was mysteriously murdered several months ago. They declare that they heard moans and saw a ghost.

Lois Martin and her wife, who lived there two or three days, assert that they heard moans at night, and Mrs. Martin believed she saw the specter of the murdered woman stoop over her sleeping husband with outstretched hands.

Another night Mrs. Martin saw a head rattling on the wall and ghostly footsteps followed by shrieks. The manifestations occurred twice at 11:30 p. m., she says which is about the hour at which Mrs. Atwood was killed.

A family named Dickson preceded the Martins in leaving the house after a few nights of terror. A negro family named Holt had the place before that, and left Edwardsville after a series of unquiet dreams and anxieties.

LEAVES HOME TO FOLLOW CIRCUS

Police Asked to Find Boy Who Had Wild West Ambitions.

After attending two performances of Buffalo Bill's Wild West Show, Joseph Henas, a 15 year-old Oakland boy, became imbued with the ambition of becoming a cowboy and Indian fighter, and after begging his mother for permission to go with the big show disappeared yesterday and is believed to have followed the tent outfit to Sacramento.

The mother, who lives at 416 Aggar street, has been searching for her son, and has asked the police to make an effort to locate him. The boy although only 15 years of age, is large for his age. Mrs. Henas told a faithful story to the police today of her struggle with the boy to keep him from leaving her.

After some difficulty the police got in communication with Colonel W. F. Cody (Buffalo Bill), but nothing had been heard of the boy. A constable will be sent to Sacramento in an attempt to trace him. He will be arrested and taken to the Probation Home.

Girl Is Found After Chase of 15,000 Miles

EVANSVILLE, Ind., Oct. 3.—Dorrie Berrows, 15 years of age, who was kidnapped at Houston, Texas, August 17, 1909 by Dr. Gordon Martin, an itinerant dentist, has been found here by her mother, Mrs. Elsie Berrows, after a chase of 15,000 miles over the United States and Mexico.

The mother says she spent more than \$5000 in the search and finally found her daughter in this city and broke into her room at the Welington Hotel while the girl was asleep. The meeting was dramatic. The girl said she went to Dr. Martin's office in Houston, Tex., a month ago and that he kept her there until Martin had fled to Canada.

Fires in Frenzy; Hits Young Girl

LEBANON, Pa., Oct. 3.—Leta Lutz of this city was sentenced by Judge Henry to serve not less than six months nor more than three years in the Eastern Penitentiary after she pleaded guilty to aggravated assault and battery in shooting in the neck and arm of a 14 year old daughter of one Will of this city who was standing in a crowd of old time work visitors on the evening of Labor Day in Lebanon.

In a drunken frenzy Lutz emptied her revolver into the crowd and then rushed home in a futile effort to escape. The girl's wound proved slight.

Thought Taft or Teddy Was President

WASHINGTON, Oct. 3.—Who is president of the United States? asked Judge Mulvaney of William Thomas a negro prisoner who was being examined by a jury.

Deed Judge Ab. Jones rightly knew they saw there a two of em—was a Mr. Taft and the other's Teddy. The prisoner's reply, "Not guilty," was the verdict.

CHARGES HUSBAND MISTREATED HER

Wife of John M. Wilson Sues for Divorce on Grounds of Cruelty.

SAN FRANCISCO, Oct. 3.—Mrs. Elsie Wilson, wife of John M. Wilson of the Visalia Sash & Company, filed a suit for divorce this morning in which she incorporates sensational charges against the man to whom she has been married for twenty-one years.

The complaint alleges that not only has Wilson repeatedly used vulgar language in speaking to his wife, but that he has completely disregarded the fact that an operation is necessary to prevent the permanent impairment of her health, and several times while she has been ill in bed has threatened to kill her if she did not get up and see after things.

ASKS FOR ALIMONY.

"I'll break your ribs as I did those of my first wife, she says he threatened and I thought she was ill she was forced to wait upon him. She asks for a suitable alimony, a division of the community property which consists of money and lands, and the sum of \$200 to be used for paying the physician for the performance of the operation which she alleges is immediately necessary.

William I. Jackson, an employee of the harbor commission, was granted a divorce from Bertha J. Jackson by Judge Calverly this morning on the ground of cruelty. Jackson testified that he rebuked his wife for drunkenness and that she then picked up and left him.

20 Tons to Acre; Is "Some Pumpkins"

SACRAMENTO, Oct. 3.—A five-acre patch of pumpkins with pumpkins as large and fat as that a person can walk on them from one end of the field to the other is a sight worth seeing on the ranch of Mrs. Sol Runyon on Sutter Island and declares a county Horticultural Commissioner Blommer who has just returned from inspection of the down-liver district. Blommer says he has seen some pumpkins in his day, but the crop on the Runyon ranch beats anything he ever saw.

According to Blommer's estimate the pumpkins will run twenty tons to the acre. Many of them weighing over fifty pounds each. As pumpkins in winter will bring in the neighborhood of \$10 a ton, this five-acre crop represents quite a nest egg.

The Rowelling of Judge Melvin.

In his speech at Fresno Friday night, September 30, the Republican nominee for Governor paid a flattering tribute to Chester H. Rowell, editor of the Fresno Republican. He also remarked that he was in "the house of his friends." The significance of this remark is illustrated by the following paragraph in the San Francisco Examiner's account of the meeting:

"The members of the Fresno County Democratic Committee were present tonight at the Johnson meeting as the guests of the Republican County Committee. They occupied two boxes in the theater. With them was Judge William P. Lawlor of San Francisco, Democratic candidate for the Supreme bench of the state."

Judge Lawlor's presence in a box, as invited guest at a Republican meeting, is explained by an editorial in the Fresno Republican headed, "Judge Lawlor." From this editorial we quote:

"So, if we commend Judge Lawlor, his record, his ability and his public services to the friendly consideration of the voters of Central California, we are not advocating nor opposing any part of either party ticket. The party mechanism of nomination this time is a temporary accident, which both parties have promised to remedy. Meantime there are four candidates for the two vacancies—Judges Sloss, Lawlor, Melvin and Medsco. Each of these candidates is making his individual campaign, without reference to any other. Frankly, the Republican favors Judges Lawlor and Sloss."

The candidates presented by the Lincoln-Roosevelt League were named by an executive committee appointed by Chester H. Rowell, writer of the editorial in the Fresno Republican endorsing Lawlor. As Mr. Rowell's friends control the Republican organization in Fresno county it is fair to presume that Judge Lawlor was present at the meeting arranged for the Republican candidate for Governor by arrangement—with Rowell's knowledge and approval if not by his direct connivance.

It would thus appear that Judge Melvin is being knifed in accordance with an understanding between the new masters of the Republican party machine. He was nominated despite their disapproval and opposition, and it now appears that they have selected Judge Lawlor, one of the Democratic nominees, as their candidate. Articles which have recently appeared in the Los Angeles Express, the Stockton Record, the Watsonville Pajaronian, the San Francisco Bulletin, the Redding Searchlight and the California Weekly confirm this view.

Meyer Lissner, chairman of the reorganized and Rowellized Republican State Committee, recently issued a statement to the effect that the committee was supporting the Republican state ticket from top to bottom. Chester H. Rowell and E. T. Earl, owner of the Los Angeles Express, are credited with putting Mr. Lissner at the head of the state committee. Mr. Lissner does not appear to be in accord with his patrons, who are boosting Lawlor and decrying Melvin. We suggest that he had better do some missionary work among the Lincoln-Roosevelt League organs; otherwise, his appeals to party loyalty are likely to be taken with heavy doses of salt.

If this campaign is to be a war of proscription and extermination directed against all Republicans who did not yield prompt obedience to the Rowell machine the fact could not be made public at a more fitting time. The grand army of Republicans who voted for Curry, Anderson, Stanton and Ebery in the primary election will have time to digest the information between now and election day and can adjust themselves to the situation. It may not greatly stimulate their enthusiasm, but it will serve to remind them that it is their duty to vote the entire ticket as a matter of principle, not of self interest.

Livingston-Street Wharf Agreement.

The Board of Public Works has reached an amicable arrangement with the two business corporations claiming the tide lands at the foot of Livingston street at the east side of Brooklyn basin adversely to one another and also adversely to the city, whereby the Cotton Brothers, to whom the contract for the construction of the municipal wharf there was awarded some time ago, can proceed with the work without further delay. The contract has also been signed by the contractors and by the representatives of the city.

Under the agreement with the Pacific Steel and Wire Works and the Nat Britain Co., the rival claimants to the land in dispute, have consented to settle their differences without embarrassment to the municipality, and later the successful litigants will have to prove up title in the Stratton survey, which grant has been held to be invalid, and all claims to it have been surrendered to the city by the Southern Pacific Company under the terms of the agreement with the administration, and the terms of the leasehold franchise to western water frontage now in course of passage through the council.

Presumptively, the only issue involved in the disputed claims to the territory in question is to which of the adverse claimants a lease to the land over which a conflict has arisen shall be finally granted.

The gratifying feature of the agreement is that all obstacles to the municipality proceeding with the improvement are removed, and no further embarrassment can ensue to the city either during the time the work of construction is in progress or after the wharf has been completed. Before the agreement was entered into the administration could not proceed with the work without the danger of being enjoined by the courts, which would have laid the foundation for an indefinitely irritating litigation, pending the settlements of which the building of the wharf would have been delayed.

North River Naval Disaster.

Overloading a tender of the battleship New Hampshire with returning shore-leave men to the ship moored in the North river off New York, resulted in the drowning of over twenty of the men. The navy department should put an end to the vicious practice, which has hitherto been tolerated of loading launches and cutters to the guards with men passing to and from shore and ship. A tremendous risk is taken every time the practice is put into effect, for a choppy sea always threatens to swamp the overloaded craft. It is next to a miracle that no such accident as occurred in the North river Saturday night has not long ago taken place in San Francisco bay, where the naval launches and cutters are allowed to pass between ship and shore crowded with men so that there is not a foot of standing room left. Officers of the warships are, of course, responsible for these conditions, inasmuch as they place no restrictions on the load the boats shall carry. The navy department will doubtless make a rigid investigation into the causes of the North river catastrophe and will probably issue regulations which make a repetition of such a disaster impossible in the future without subjecting the responsible officers to court-martial.

NEXT ON THE BOARDS

—LOS ANGELES TIMES.

Finishing the New Charter.

The new charter framed by the Board of Freeholders for this city will have to be completed and signed tonight by at least ten of the members of the board and filed with the city clerk tomorrow, the ninety days allowed by law for the purpose expiring at noon October 4. The instrument as framed will then have to be printed in two newspapers of bona fide general circulation for twenty days, it being the duty of the council to fix the date on which an election shall be held, adopting or rejecting it by popular vote. Subsequently, if approved by the people, it must pass the gauntlet of the legislature at the next regular session before it becomes operative. The final action on the charter, which will be taken tonight, will be on the recommendation of the revision committee which has been hard at work for several days past in putting the instrument in shape and removing all possible causes of its invalidation.

The wild duck shooting season for 1910-11 has opened, and the members of the sportsmen's clubs have started the annual slaughter, of which they have practically the exclusive right through the peculiarities of our game laws. The general public will, as usual, derive no benefit from the results of the season. The restrictions placed by the law on wild duck shooting and selling make it impossible to supply the markets in such a volume that the public at large can obtain this class of wild game at reasonable prices. Our game laws are now in such a shape that only an exclusive class in the population of the State can reap any benefit, in fact, from any wild game within the confines of the State.

INGRATITUDE

By REV. WILLIAM C. POOLE,
Assistant Pastor First M. E. Church

"But where are the nine?"—Luke xvii.

Ingratitude is the most popular sin of humanity. It is selfishness, a form of selfishness. It is the emphasis of pre-tended loyalty.

"Gratitude consists of an equal return of benefits if we are able; of thanks if we are not able."

Ingratitude is a sin more heinous than revenge, for where revenge is returning evil for evil, ingratitude returns evil for good.

It is the bane of small nature; a certain resentment begotten by disparity of circumstances and conditions of life. Gratitude is the spontaneous flowering of the soul in the recognition of the springs of affection in a cheerful nature.

"To err is human, to forgive divine. To expect gratitude is human; to have courage to face ingratitude is divine. This becomes a supreme test of character."

The man who despite lack of recognition, or appreciation courageously and unflinchingly faces the future "bears up and steers right onward" and dares to do right for "right's sake," becomes at once an ideal and an inspiration.

Ingratitude smites with a scorpion lash and the sting is hard to assuage.

Cynicism hardly springs from prolonged ingratitude, unless we are reinforced by spiritual might.

Godsman and Calvary were the tragedies of ingratitude. The cleansed leper's ingratitude was thanklessness. Peter's ingratitude was denial; Judas's ingratitude was treachery. These are related forms, the existence of the first suggesting the possibility of the last. Let us believe resolutely in the persistence of goodness. In the endurance of high, well-directed effort, and in the exercise of spiritual acts.

Thus rendering ourselves immune from cynicism and amassing the courage to face ingratitude.

Purpose of Athletics

Every national advocate of college athletics will endorse the theory of outdoor sports as taught in Swarthmore College, according to the definition given by President Swain.

"Athletics so far as it is promotive of good health, good character, good scholarship and good fellowship, is to be encouraged. An earnest effort is being made at Swarthmore to conduct athletics along these lines. Under the circumstances it is a pleasure to point out that the athletic teams have reached a high degree of success."

"It shows that it is not so much numbers as training, pluck and spirit; which count in athletics as in other affairs in life."

Athletics for any other purposes than those named by Doctor Swain should have no part in college life.

And while there has been a tendency, more especially in certain of the higher institutions, to make athletics a primary feature of college life, it is diminishing.

Fewer and fewer students are entering this or that college or university solely to take its course in athletics. Conversely, more and more young men and young women are going to these institutions for intellectual training.

Athletics is extremely valuable to the young men and the young women at college, but it never is, or at least never should be, the primary aim.—Philadelphia Times.

Timely and Interesting Topics

In the smoking room of an ocean liner bound for this port two elderly men who had not met until they became fellow passengers, were killing time, when one remarked that it was the fortieth anniversary of Sedan, and that he was there. "Indeed," said the other excitedly, "no was L." Comparison of notes followed, and it turned out that one had been in the French and the other in the German army. Both are now residents of the same Western state. The strange part of the story, as related by one of the men, was that the man who had been in the French army was an Alsatian and the other, who had served under the German flag, was of German parentage, but was born in a French city.

"Hardly a day passes that we do not note the increase of wages granted by some industrial enterprise, and it is estimated that the advance in wages which will be granted this year," says Leslie's Weekly, "will equal the stupendous sum of \$500,000,000. While this splendid result has come to the wage earners, and it is a fair assumption that it must have come first to the employing classes,

it has also come in equal measure to our farmers. One of the reasons for the decrease in exports of foodstuffs is because the farmers can market almost their entire output at home and at the highest prices ever received for them."

As if to recompense the desert dwellers for the poverty of the parched plains and sandy wastes, nature has provided him with the strange mirage, which is visible in nearly every part of the desert. Beautiful lakes with wooded shores, tree covered mountains, villages and men and animals are seen upon the desert horizon, where the Arabs know that only desert can exist. Sometimes, the images appear inverted in the sky, and the men and animals and houses are upside down. Nature, too, has provided a way to determine whether the mirage is real or not, for by raising or lowering the head the distant picture will at once assume a different shape; the men may then become trees and the houses become hills, yet still the mirage seems so real that the Arabs, who are accustomed to seeing it daily, are frequently deceived by it.—E. J. Banks in Christian Herald.

SIZING UP SUMMER GIRL

Seaside dress and holiday attire in general as it has been known this summer has attracted the caustic comment of the Rev. W. J. Stobart, vicar of Carlisle, Isle of Wight.

"For some weeks we have enjoyed the presence of the summer visitor," writes the vicar in the Parish magazine, "but who devised their clothing? We can remember the time when the English girl was the most attractive creature. But the 1910 female seems to be wrapped up in a bundle of rugs, with the least clean one spread over her hat and tied under her chin.

"Or else she discards as much of her clothing as she can, leaving her hat at home and goes her head full of dust; exposes her chest to every wind that

blows, displays ankles that show the solidity of her undertaking, runs about half clad, crumpled and dust laden. Is it to convey an impression that they have all traveled in motor? Because some of the rushing motors drive one the suggestion of a heap of crushed humanity, females and children, lying in a heap.

"But the motorist deserves a line to himself. He comes howling, squealing, bellowing, tinkling, roaring or whistling with a piercing scream, to tell everybody to get out of the way because the road belongs to him. He and his rush through the loveliest scenery and the exquisite peeps of land and sea at the pace of a train, without time to look at anything. He in goggles. His females in folds of material.

ON BOY CULTURE

Not since a resident of New Jersey discovered that boys ought to be segregated and kept in an adjacent—but not too adjacent—house, where they may create the necessary boyish disturbance unnoticed, has anything really enlightened in the matter of rearing that necessary but often uncomfortable and frequently dangerous animal been presented. And inasmuch as the boy crop, in spite of race suicide, dry weather, sun spots and measles, is likely to be a large one for some years to come, any light upon the subject of caring for it is welcome.

New York's supervisor of recreation, it is said, is about to make certain recommendations, among which will be that of restricting the number of woodsheds on the playgrounds as part of the equipment.

The idea that the woodshed is a good thing for boys, is not, however, original with the supervisor of recreation. If he will look into the records carefully he will discover that many a prosperous business man and useful citizen had experienced in the New England woodshed which gave him a new outlook upon life. It should be added that, in most instances, the young man's father was alone when the lessons were learned. While admitting the value of the woodshed, as suggested by the supervisor, as a means to a desirable end, the man brought up under the old regime will be inclined to question whether without the time-honored method and some non-conformity to the doctrine of moral suasion to expound them the fullest possible benefit can be hoped for from the plan.—New York Tribune.

EDUCATING CHINESE HERE

An unassuming little man of quiet demeanor but of enormous potential energy, is the dean, guardian, friend, counselor, commandant and general overseer in America of several hundred young men who are destined to become one of the dominant factors in the real uplift of China, who are in training to command the educational and industrial as well as the militant army of the new Orient.

This man, whose soft spoken English challenges the best that Boston or Cambridge can give emanation to, is Yung Kwai, first secretary of the Chinese embassy in Washington, a man educated in the best schools of America and acquainted with the thought, customs and achievements of the occident.

as thoroughly as he is with the institutions of the flower kingdom. There are now in the United States about 1000 Chinese students, of whom a third or more are sent by the imperial government of China. All of these government students have been received personally by Yung Kwai and assigned by him to the academies and colleges where they are to carry on their studies.

Just arrived in Pacific Teal Heun, whose arrival at San Francisco on September 19 was delayed by the quarantining of the steamship conveying him in Japan. He is accompanied by 25 more Chinese youths, who have been met in San Francisco by Yung Kwai and assigned by him to educational institutions.

AMERICAN APPLES IN ENGLAND

An experimental shipment of apples to Southampton from the Venetian section of the state of Washington, made in 1908, proved so successful, both in a financial way, and great or still in the more substantial facts of a good reputation, that in 1909 the same dealer made another shipment, this one amounting to 20,000 cases. The fruit was neatly packed and went on the market in first class condition. It is a matter of financial record that this Venetian fruit sold at the highest price above any American apple ever offered in the open English market.

Seven months after the shipment, which was acknowledged by the shipper, was sold in the retail market at 8 to 12 cents per pound, and eagerly taken at that price by the best trade.

It is gratifying to note that the orders now made will more than exhaust a shipment of the same size during the early part of 1910. Of course it should be stated that the quality of this Venetian fruit was first class, due to the nature in every case, and no second put in to fill up, yet much depended on the method of packing, and in that it was found superior in every way. Therein lies the way to success for the American fruit packer and shipper—good fruit, well packed, and then kept out of an average European market may control export. The Venetian can meet the British Columbia fruit in competition in any English market and win on merit.—Consular Report.

20 YEARS AGO IN OAKLAND

Sigmund Beel, the violin virtuoso, is having considerable trouble with his left arm and called at Woods's Hospital today to have it treated.

The residents on the north side of Thirty-second street have filed a petition for a sidewalk four feet wide, between San Pablo avenue and Market street.

Four new carriers have commenced the serving of letters in the city today.

A largely attended meeting of the American Citizens' Association of Alameda county was held last evening at 759 Seventh street. A petition was received from all the colored taxpayers in the district endorsing the efforts of the association to procure creditable representation for the colored people in the legislature.

Fred Kragth, Jr., withdraws from the fight for supervisor in the Second district on the Democratic ticket. He leaves the field to Jensen.

The foundation for the main lake sewer was completed yesterday and is now good and substantial. Thirty-foot pipes had to be used in constructing the foundation. The sewer is covered to Franklin street and now waits the filling in to that point.

The official board of the First Methodist church decides to recommend that the pastor's assistant, recently chosen, be given a salary of \$75 per month and that his house rent be paid. The matter of raising the janitor's salary was discussed, but no action was taken.

Postmaster Bishop has received authority from Washington to establish five stamp agencies. His applied for agent Isaac L. Ropha has been elected director of the Oakland Bank of Savings, vice Samuel Morrill, deceased.

After ten years an apprehension has been made of the estate of George C. Potter, deceased. W. E. Miller, W. R. Thomas and A. J. Snyder, who were appointed by the court to make the apprehension, filed their report this morning and valued the estate at \$130,984.

The railroad company will soon have a policeman on the last three Berkeley trains Sunday and Monday nights to keep the boys in order. Very frequently of late windows have been broken in the cars on last trains.

It has been reported that Postmaster Byrne of Berkeley will be a candidate for justice of the peace before the Democratic convention, which will meet Saturday.

The residence of Doctor Young at Mission San Jose has been burglarized and a gold watch and \$20 have disappeared.

The fair for the benefit of St. Francis de Sales church is well open this evening in the hall at the corner of Twelfth and Webster streets. Among those who will take part in the program are: Miss Mary Sullivan, Miss O'Brien, Miss O'Connell, Miss McNally, Mrs. Weeks, Miss Gussie Fagan and Professor Manning.

The report of the city treasurer shows that there are \$128,942.11 in the treasury.

BUGGY HIT BY CAR; DRIVER ESCAPES.

sult of Accident at Berkeley.

late Saturday night, when the buggy in which he was riding was struck by Northbeak No. 50 at Grove street and Reasley was smashed to pieces. The driver, the driver, together with three others that were tied to it, to run away. He was thrown to the ground, but escaped injury except for a few minor bruises. All the horses were caught and turned over to the police yesterday.

**'THE KLEPTOMANIA' TO
BE GIVEN BY CO-EDS**

BERKLEY, Oct. 3.—The Associated Women Students of the University of California have arranged for the production of "The Kleptomaniac" to be given at their assembly hall, to hold Friday afternoon in

They are planning to make this one of the most enjoyable affairs of the season. The women's orchestra will give several selections, while the Treble Clef will also appear. Following is the cast. Mrs. John Burton, Rena Brooks; Mrs. Valerie Crumsey, Marguerite Parr, Mrs. Freda Dixon, Aubra Marlow, Mrs. Dover Ruth Ware; Mrs. Ashley, Harriet Pamore; Miss Evans, Dolores Braden; Kate, Lucy Gidney.

ALAMOGADO, Oct. 3.—The last cargoes of oil for the winter of this city will be shipped on today, and the north side tire dealers will begin to stock up. The tire companies will also be buying a carload of oil for the boulevard around the east end loop. Superintendent of Streets V. M. Frodese stated today that the city is not in danger of a shortage of oil, as they have been for several years, due to the spreading of the oil during the summer months.

CHINESE WAR VESSELS TO BE BUILT IN AMERICA

SENATOR MUST TESTIFY AT HEARING

Congressman Clark Made Up Mind Thirty Minutes Before He Voted.

John Broderick Summoned as Witness in Lorimer Investigation.

CHICAGO, Oct. 1.—When the Senator Lorimer investigating committee began its session today it was announced that United States marshals had succeeded in serving a witness summons on State Senator John Broderick, and that he would testify before the committee. Representative Joseph Clark, who was the first witness recalled for examination today, was asked to reconcile his statement before the grand jury that he had made up his mind to vote for Lorimer some days prior to the election and his testimony before the committee that he had determined to cast his vote that way only thirty minutes before his name was called.

"I had thought I would cast my vote for Lorimer some days before the election was cast, but came to an absolute conclusion about half an hour before I was called upon to vote," replied the witness.

LETTER A FAKE.

Representative Beckmeyer explained that a letter inviting him to meet Robert E. Wilson, a Democratic representative from Chicago, to discuss a banquet to Lee O'Neil Brown was "a fake." Beckmeyer said that the letter was received by him in May of this year, but had been dated back a year. The letter alleged to have been written in an attempt to make the meeting of the so-called "back-potters" at St. Louis appear an ancient proceeding.

Son of Journalist Faces Indictment

Griffin Halstead Accused of Embezzlement and Larceny by Federal Grand Jury.

WASHINGTON, Oct. 3.—Griffin Halstead, son of the famous journalist, the late Muriel Halstead, whose well-known brokerage firm failed January 17 last, was indicted by the federal grand jury today on charges of embezzlement, false pretenses and larceny.

BELL AND JOHNSON TOURING IN THE SOUTH

Democratic Candidate to Speak in Oil District

LOS ANGELES, Oct. 3.—The more Bell and Johnson, the Democratic candidate for Governor, returned to this city from San Bernardino early yesterday afternoon. He spent several hours later in conference with the local leaders of the party. At 9 o'clock in the evening he left for Bakersfield, accompanied by Timothy Spellacy, the party candidate for lieutenant-governor. From Bakersfield the two will make a campaign tour of the neighboring oil fields. Tomorrow morning they are scheduled for Fresno and for Visalia in the evening.

Speaking of his tour through Southern California, Bell says: "Mr. Spellacy and I have been cordially received by the people of the south. Bell said last night before departing for Bakersfield, "I firmly believe that they will give us their support and that we shall carry counties which in former years have been overwhelmingly Republican. I speak not only of Los Angeles, but of San Bernardino, Riverside, Orange and San Diego counties. Wherever we have gone we have found a revolution in political sentiment in favor of our cause."

BREAKS BOTH ANKLES IN HIS SEARCH FOR WORK

SAN FRANCISCO, Oct. 3.—The misfortunes of Harry Goodman of San Anselmo, who came over to this city this morning in search of employment, have seemed him to believe that fate was against him when he left his home today. Goodman didn't get work, but he met with an accident which caused him to break both ankles, and will lay him up for a long time to come. He was walking along the corridor in Crocker building, 330 Rensselaer street, when, in a dark passage, he stepped into an open elevator shaft and fell the basement. He was taken for treatment to the Central Emergency Hospital.

Auction Sales

CREDITORS' AUCTION SALE of three fine stocks belonging to J. H. Harrison, O. McPherson and Mrs. Davis. Sale, Tuesday, October 4, at 10:30 a. m., at 1007 Clay street, Oakland. "Comprising" part, Choice line of ladies' and gentlemen's clothing, including National cash registers, etc., etc. This is an extra fine lot of goods. Open Monday for inspection. J. A. MUNRO & CO., Auctioneers.

OAKLAND WOMAN ATTACKED BY FIEND

Mrs. D. McDonald Struggles in Back Yard With Brutal Thug.

BLOWS WHISTLE AND BRINGS POLICE TO AID

Suspect Arrested in Yard and Will Be Held for Investigation.

Caught by a fiend who had seen her leave her house and go into the small rear yard at her residence at Twenty-second and Myrtle street Mrs. D. McDonald, a well known matron of Oakland, engaged in a struggle with a brutal assailant last night when the man leaped the fence and attempted to throw her down in the shadow by the fence. The attack of the woman was made shortly after 9:15 last night, and her screams brought Patrolman Cornelius J. O'Grady rushing to the place. Henry Neelies, who was found by the officer attempting to make his escape from the yard, was placed under arrest and is being held in detention. The man will give no explanation, but declares he is not the man responsible for the attack. Mrs. McDonald is prostrated at her home as a result of the shock.

ATTACKED BY FIEND.

She had left some washing on the line and, returning about 9 o'clock, decided to bring in the few pieces of linen. Descending into the yard, she commenced removing the garments from the line, when suddenly she felt herself clutched from behind by a man who made a violent attempt to bear her to the ground. Twisting herself in his arms, she struggled with him, and finding that she was losing her strength, screamed for help. She managed to reach down and clutch a small police whistle which she had tied around her waist by a piece of cord.

TRIES TO HOLD HIM.

The shrill sound of the whistle echoed down the street and a moment later the sound of running footsteps was heard. The man let go his hold, but the woman would not let him go. She held him until the policeman should arrive. The fiend struck her in the face and breaking from her hold, attempted to leap the fence. The patrolman burst into the garden at that moment and discovered a man giving the name of Henry Neelies. He took him to the police station, but pending further identification by the woman, he has not been booked.

THE REPUBLICAN CAMPAIGNER RESTS A DAY AT LOS ANGELES

LOS ANGELES, Oct. 3.—Hiram W. Johnson, the Republican nominee for Governor, departed from his regular campaign programme yesterday, as mapped out by the local committee, by visiting the beaches and enjoying himself, instead of going to San Diego, where he was scheduled to speak. He eschewed politics for the day.

Mr. Johnson left for the city of bay elite at 2 o'clock today, and will return here tomorrow evening, when he will visit Riverside. Following his engagement at Riverside, Johnson will proceed on campaign tour up the coast. He is scheduled to speak at Santa Barbara Wednesday evening.

USES SHIRT AS BANK; SENDS IT TO LAUNDRY

Using a handkerchief pinned into the pocket of a shirt as a bank in which she tied \$250, Mrs. W. H. O'Dell promptly forgot about the coin and sent the shirt to the laundry in a large bundle of soiled linen. After her husband had reported the loss of his money to the police she suddenly remembered what she had done with it.

The adventures of the money are recounted only by those of the Brave Little Tin Soldier in Anderson's Fairy Tales. After being dumped indiscriminately into the washing machine at 1341 Sixty-third street, the collection of coins became separated, some of them falling to the bottom of the machine, and others being thrown down the sewer with the dirty water.

TEAR OUT PLUMBING.

The travels of the cash were traced by Detective Enigh, three \$20 pieces being recovered from the machine. Today will be spent in tearing out some of the plumbing at the laundry to recover the rest of the money. A fifteen foot barber pole, beautifully decorated with the national colors, and bearing a golden ball at its peak, was stolen during the silent hours of early morning from in front of the shop of R. J. Washon at 300 Alcatraz avenue. He believes that college boys are responsible for the theft.

And now comes Col. Watterson alluding to Japan as "the Sunflower Kingdom." This comes of allowing Kansas to figure too much in the limelight. Baltimore News.

BALLOONISTS FLY FROM OAKLAND TO ALVISO; IN PERIL OVER BAY WATERS

Birdseye view of Claremont district, taken from balloon, and portrait of Miss Blanche Bonham, who crisscrossed the gas bag.

'DIAMOND' REACHES ALTITUDE OF 5200 FEET

Passengers Land in Salt Marshes, Turning Somersaults

By Jack Wishar

Dropping four thousand feet in less than six minutes, the big gas balloon Diamond yesterday hung poised fifty-five feet above San Francisco bay while the three passengers looked vainly for some craft which might tender aid, and prepared for a battle in the muddy, looking water with but little hope of success. At the moment when a plunge into the bay seemed inevitable, when all ballast and every article, no matter how trifling, had been cast out of the basket, a warm current of air was encountered which expanded the gas, shooting the balloon up 300 feet, where it was gripped in the friendly clutch of an air current that swept it towards the Alvarado marshes at an estimated rate of forty miles an hour.

EXCITING ADVENTURE.

This proved the most exciting adventure of the ascent of the Diamond, which took place at 2:45 o'clock yesterday afternoon from the aviation field at Sixty-third and Telegraph avenue, before a crowd of friends of the aeronauts and spectators which packed the big area. The balloon was in charge of Captain P. A. Van Tassel, and also carried C. E. Mathewson, Pacific coast manager of the Diamond Rubber Company, and myself. The balloon ascended easily, the earth dropping away in a great panorama of roofs, streets which resembled silver threads, mountains which dwindled to the most insignificant, while beyond the golden gate seemed like a gossamer thread laid over a deep purple tapestry; the Pacific ocean gleamed blue in the sunshine, while far beyond, the Farallone islands lifted their heads like the points of Neptune's trident. The aviation field dwarfed to the size of mere dots, finally blending with the darker ground as the balloon rose higher.

DRIFTS TOWARDS ALAMEDA.

At three thousand feet the gas bag was caught in a light current which drifted it slowly towards Alameda, over the heart of Oakland. The city was only a brown mass of roofs, with the streets sharply outlined like slender threads of light. The perfect stillness of the upper air was broken only by an occasional creaking of the cordage, or the voice of one of the passengers.

Contrary to expectations, the higher we ascended the warmer it became. At a height of 4800 feet the heat was uncomfortable, and at 5200 feet, the highest point reached during the afternoon, it was compelled to doff my coat to gain relief from the heat. There was no perceptible movement of the balloon at any time, and the only means of determining our speed was by lining up objects on the ground, but at this great altitude at which we were traveling this was difficult even with the aid of powerful glasses.

STATIONARY OVER BAY.

The upper current was slowly sweeping us over the bay, but when off Hunter's point the balloon remained stationary, the faint current leaving us. For more than an hour the big bag hung suspended at this point, occasionally falling a few hundred feet, but regaining the upper regions when sand ballast was cast out. The sound of the waves reached us and they resembled the accompaniment of some great church pipe organ, so deep was the note in the upper silences of the air. The panorama presented by sea and

FIRST FLIGHT OF THE NEW AIR CRAFT IS SUCCESS

Girl Christens Balloon Before Journey Is Begun

By Jack Wishar

now seemed inevitable, and we began to prepare for it. But luck was with us for a warm current of air suddenly caught the balloon and it rebounded upward to a height of 600 feet, sweeping on towards the land with the speed of a railroad train. We breathed a sigh of relief.

A few moments we were over the tide flats, sailing at a height of 300 feet; over the big salt works, with the huge squares of murky looking water, and finally out over the marshes. The balloon again began to settle and we climbed into the rigging, prepared to leap when the basket struck, as the big bag was sweeping along at a terrific rate and our only chance for safety lay in dropping off as soon as the basket touched the earth.

HANG LIKE FLIES.

For a few moments we hung like flies, but at the moment we expected the basket to strike, by some strange freak it again shot upward, carrying us to a height of 500 feet, and sweeping along across the desolate wastes. For half a mile the flight continued, when the big bag again began to settle. Again we climbed into the rigging and waited for the instant when the basket would touch the earth. The balloon's speed was not diminished when the basket struck the earth with a crash that threw us far into the air and we landed on the soft marsh grass, rolling in double somersaults for many yards and laying there for a few minutes breathless from the impact, while the balloon continued on its way. But the rip cord had been drawn as the balloon touched and it soon settled.

Captain Van Tassel seriously sprained his left arm in his fall from the rigging and suffered severely. We had landed in a desolate spot, far from any house. The journey across the marsh on foot then began. Mud was encountered that taxed our energy and endurance; deep sloughs of soft mud which had to be crossed in our effort to escape from the marsh before nightfall, as the sun had set and darkness was rapidly approaching. For nearly an hour we continued on our weary way until at last we reached a slough way too broad to be crossed. The sound of an auto's siren came through the gathering dusk, and despite its harsh shriek, it was sweet music.

RESCUERS APPEAR.

Reaching a spot opposite a large barn, we sat on the grass and waited until rescuers appeared. They came in the form of R. L. James, C. Allen, P. H. Smith and E. Jackson, who had followed the balloon in an auto. The problem of getting us across the slough was solved by the partial destruction of an old barn, the boards being used to lay a pathway across the marsh over which we traveled to dry land and the waiting automobile. The trip was accomplished and had proved successful in every respect.

The balloon was to have carried four passengers, but at the last minute it was decided that the lifting capacity was insufficient to take four, and it was decided to flip a coin to see who should remain. Professor A. Vander Nalieu won the throw and was forced to watch the others sail aloft.

BATTLE FOR LIFE.

The needle registered 80 feet and then 75 and finally 55 feet. At this point every article in the basket was cast out, even trifles in our pockets, in order to save weight. A battle for life in the bay

BANKERS CONVENE FOR A BUSY SESSION

Committee Meetings Are Held Preliminary to Convening Tomorrow.

IMPORTANT BUSINESS WILL BE TRANSACTED

Hundreds of Delegates Arrive in Los Angeles for Notable Meeting.

LOS ANGELES, Oct. 3.—Committee meetings prior to the general convention of the American Bankers Association are in progress today and 17 important committees are in session, preparing their reports, which will be submitted to the executive council of the association. All of the committee meetings are executive and the matters they are considering are of great importance. Chief among them are "Bill of Lading Covering Foreign Deliveries," "Express Companies and Money Orders," "Standing Law," "Savings Bank Laws," "Trust Company Section," "False Statements," "Finance Committee Resolutions," and "Federal Legislation."

DELEGATES ARRIVE.

With the reports of these special committees in hand the executive council will present them to the general convention of the association at the meeting in the Auditorium tomorrow. Delegates and visitors to the thirty-sixth convention of the American Bankers Association, continued to arrive in special and regular trains all last night and tomorrow; two related specials came in today bringing more than 200 late arrivals.

BANQUET TONIGHT.

An elaborate banquet in honor of the executive council will be given at the Hotel Alexandria tonight at which 150 guests will be present. J. A. Graves will act as toastmaster and there will be a number of speeches bearing on important questions that will be taken up by the association in connection tomorrow.

Committees of local bankers have met every train and personally escorted the delegates to their hotels where flowers and fruits of California in profusion had been arranged in the rooms of the visitors.

EXPECT MORE CONTRACTS.

That there will be at least two more contracts awarded to Schiaw for work to be done here is the hope of the officers of the Union Iron Works. The details of the award of the contracts were telegraphed here privately to General Manager Tynan of the Union Iron Works, but these are withheld from the public by the company.

DR. DRURY IS NOW PHILOMATH'S HEAD

Former Oakland Pastor Is Installed as President of Oregon College.

Rev. Merion Richardson Drury, D. D., brother pastor of the First Brethren church, Thirty-fourth and Adeline streets, was formally inducted into the office of president of Philomath College at Philomath, Ore., with imposing ceremonies yesterday. Prominent speakers from the schools and the United Brethren churches of Oregon and the alumni and citizens of Philomath made addresses, after which the keys of the college were delivered to Doctor Drury. On accepting them he proceeded to deliver his inaugural address on "The Distinctive Idea and Purpose of Education." He was greeted with a large and interested audience, who received the message of the new president with manifest approval. In the evening a banquet and reception were given by Dr. Drury and Mrs. Drury and other members of the college faculty, over one hundred and fifty citizens and visiting friends of the college being present.

BRASS THIEVES ARE RELEASED BY DUNNE

SAN FRANCISCO, Oct. 3.—"It seems pathetic to send your men to the penitentiary for stealing brass from the lamp post of the city hall when you can't put men in prison for trying to steal the whole city," said Superior Judge Dunne, this morning, and he forthwith released on probation George Brown and John Peterson.

The youths were taken into custody while in the act of a wing off the brass from a deserted portion of the old hall.

SCHWAB GIVEN BATTLESHIP CONTRACT

Will Build Two War Vessels for China, Declares Secretary of Prince Tsai Suin.

Big Fighting Craft for Flowery Kingdom to Cost Total of \$15,000,000.

PITTSBURGH, Oct. 3.—In an interview in a five-minute stop of a New York-St. Louis train last night, Lee Some, chief secretary for Prince Suin of China is credited with an announcement that a contract for two Chinese battleships, to cost \$15,000,000, has been awarded to Charles M. Schwab, head of the Bethlehem (Pa.) Steel Corporation.

The Prince and his party traveled through here during the night in Schwab's special train, but as Schwab was not aboard and the Prince was asleep the statement of the secretary could not be confirmed. The Prince will sail from San Francisco October 6 for China. Two battleships for the Chinese navy will be built in San Francisco and the work will begin just as soon as it is possible for the Chinese government to pass upon plans already submitted to Prince Tsai Hsun by Charles M. Schwab, head of the Bethlehem Steel Corporation. The work will be done at the plant of the Union Iron Works, in which 3500 men are employed when the plant is running full blast. As the two battleships are to cost \$15,000,000, the officers of the company are preparing to run it not only full blast but perhaps continuously until the ships are completed and launched.

EXPECT MORE CONTRACTS.

That there will be at least two more contracts awarded to Schiaw for work to be done here is the hope of the officers of the Union Iron Works. The details of the award of the contracts were telegraphed here privately to General Manager Tynan of the Union Iron Works, but these are withheld from the public by the company.

IMPROVEMENTS IN OAKLAND

Superintendent of Parks Prepares to Beautify Land Donated to City; Debris and Clay Have Been Cleaned Away

The work of clearing Fourth avenue park, donated some months ago to the city by P. M. Smith, a local capitalist, has been completed by the park department, under the supervision of Malcolm Lamond, superintendent of parks. The two blocks of land, when taken over by the city, was covered with clay and street dumpings of several years accumulation. The debris and clay has been cleared away and leveled down, and Superintendent Lamond has commenced ploughing and making the soil ready for grass, flower beds and shrubs for the beautification of the park. He has laid out the plan of the two blocks at Fourth avenue and East Twentieth street, making details of the park with winding paths, fountains and groups of trees and flower gardens. The park land has been curbed on the street frontages, and will soon be one of the finest parks of the city.

BURGLARS STEAL WATCHES AND COIN

Make Use of Bath Room Window to Effect Entrance to Residence.

Crawling through a narrow bath-room window, burglars effected entrance to the residence of C. E. Lange at 253 Perkins street last evening and ransacked the place. They obtained two gold watches, some jewelry and \$1 in coin, the total value of the articles stolen being about \$50. No trace of the burglars that may lead to the discovery of their identity has been found.

A Three-Year Loan

OF \$2100 Wanted

Will pay 7 net, giving first mortgage on new \$3600 home just being completed. Absolutely safe. Finest investigation solicited. Private parties only. Address Owner, box 4895, Tribune.

CHINESE NATIONAL ASSEMBLY DENIED

Empire Authorities Are Getting Peevish Over Demands; Are Called "Rash."

WASHINGTON, Oct. 2.—"Should anyone attempt to press the Chinese government for immediate opening of Parliament, the authorities should deal with him vigorously," declared Count Okuma, the former Japanese premier, in a statement which has reached Washington.

Count Okuma referred to the Chinese prince regent's refusal to grant a Parliament as prayed for during the turbulent times last summer. Count Okuma, who has closely watched the situation in China, said he doubts whether the country will be in its exigent state in nine years hence, at the present rate of progress; that in the present unprepared state it is "altogether too rash" to claim constitutional right.

"Thirty-nine years ago," according to his statement, "a decree was issued in Japan promising the nation a Parliament within five years. Yet, open a diet after nine years. Yet, over twenty years were spent for various arrangements before Parliament was opened. In China not more than three years have passed since the edict promising a diet was issued. The constitutions of various countries have been opened, and the council of administrative affairs is going to be organized, but the national conditions hardly warrant the imperial decree. A Parliament instantly. In China the central government is singularly weak, owing to the constant friction between Chinese and Manchus concerning the Manchou government, imperfection of communication and difference of diet, and it is better for China to develop the provincial assemblies, cultivate political ideas among the nation and gradually move toward the desired goal."

FLAMES AND SEA THREATEN DEATH

Launch Party of Seven Rescued by Firemen by Means of Ladder.

CHICAGO, Oct. 2.—Threatened on one side by flames that were approaching perilously near to a gasoline tank, and by drowning on the other, seven pleasure-seekers clinging to the side of a launch in Lincoln Park today last evening were rescued from the cold water with the assistance of a 100-foot "telescope fire ladder."

When the fire broke out the members of the party jumped into the water and held on to the launch while some one on shore turned in a fire alarm.

The party was occupying this position when a hook and ladder company arrived. While the firemen were shooting more directions, a long "telescope" ladder, such as is used in fighting the flames among the tall buildings, was pushed out into the water. The launch was backed out after it as far as possible without submerging it. A cheer went up from the crowd when it was discovered that the ladder just reached the launch. Then the firemen pulled the launch up the bridge and assisted the water-soaked party to the shore.

It was the work of but a few minutes to flood the launch with water and extinguish the flames.

Expects to Establish Precedent at Harvard

CAMBRIDGE, Mass., Oct. 2.—Robert Alphonso Taft, Yale '10, son of President Taft, has arrived at Harvard to take up the study of law there. He has as roommates at Cambridge the two young men whom he lived during his four years at Yale. They are Stephen Milburn, last year's Yale baseball captain; Luther Wright, the Yale crew captain; and John Herson, son of a wealthy New Yorker.

"I came here to study," said "Bob" Taft, "and not for athletics or any other side line. I'm here just to work. I didn't come to Harvard for the fun of it. I decided that the Harvard law school was better than the Yale law school and that's why I decided to come here. I don't know as yet where I shall go after I have finished the Yale law school. I expect to practice law, but probably in New York."

Divorced 18 Years; Now Wants Alimony

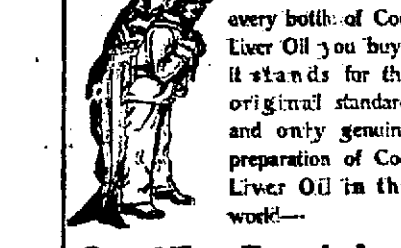

PHILADELPHIA, Oct. 3.—Mrs. Mary Lawrence, who divorced her husband eighteen years ago, when he was a laborer working for the city, has applied to the Supreme court to settle the amount of alimony to which she is entitled.

The divorced husband now is a car mechanic and earns \$100 a month. He was 77 years old. The woman, who is 61, her husband's name, is a seamstress.

Killed and Burned His Wife, Is Charged

BROOKVILLE, Ind., Oct. 2.—Charged with killing his wife and setting fire to the body, Charles Biddle, formerly a Chalmers, Ind., escaped. The murder occurred at Peppertown. Biddle had been separated from his wife for several weeks.

CHINESE GIRL DISAPPEARS FROM HOME

Little SUM SEEN, who is missing.

Left Note Saying She Was "Going Away"; Search in Progress.

Leaving behind a note to her brother in which she stated simply that she was going away, nine-year-old Sum Seen, who lived with her parents at 885 Franklin street, disappeared about 1 o'clock Saturday afternoon and her whereabouts has since then remained a mystery.

When last seen little Sum Seen was dressed in Chinese costume of blue and white spotted gingham. She wore two braids of green and black hair, was described as having black hair and eyes, dark yellow complexion, weighs about 65 pounds and is about 4 feet and 2 inches in height. Sum Wy, father of the missing girl, states that he knows of no reason why she should have left in so strange a manner. A diligent search is being made throughout the Chinese quarter, as there is a suspicion that Sum Seen may have been enticed away by parties desiring to place her in slavery.

That the affair may turn out to have been an elopement and that little Sum Seen may at this time be enjoying a Chinese honeymoon, is looked upon as not being improbable by those who are interested in the search.

OFFER TO REBUILD CITY OF MESSINA

English Constructor's Agent Charges Officials Wanted a Bribe.

ROME, Oct. 3.—A firm of English contractors has proposed to rebuild Messina according to plans approved by the government, to clear the streets and negotiate a loan of \$12,000,000 to the municipality at 3 1/2 per cent.

The reconstruction of the city would occupy five years, according to a proposal referred to the municipal authorities, who rejected it.

A representative of the English firm was summoned to Messina and had an interview with influential citizens, who informed him that if the firm was willing to pay them, they would have the proposal accepted.

The agent asked what they wanted. One was willing to accept \$20,000 and the other insisted on 3 per cent. The agent returned to Rome and reported the matter to his superiors. The minister was indignant and the case was brought before parliament. Meanwhile the two citizens are suing the agent for slander.

The Messina ruins remain as on the day of the great earthquake.

War Near in Europe; Greek Situation Grave

LONDON, Oct. 3.—The Times' Athens correspondent pictures the Greek-Greek situation as extremely grave. He says the issue of peace or war is believed to rest not with the Turkish Government, but with the irresponsible Young Turk committees, which practically control the army, and which may at any moment decide to invade Greece, occupying Thessaly and holding it as hostage for the settlement of the Cretan question without waiting for orders from Constantinople.

Anxiety regarding the situation is greatly increased by the attitude of Roussaki, who offers Turkey security against Bulgarian attack and practically against Thessaly to Turkish invasion. It is with a view to removing the last shadow of a pretext for an invasion that Greece has declared vacant the seats for the three Cretans elected to the national assembly and fixed new elections.

Promoters' Money Goes With Aviators

WASHINGTON, Oct. 2.—The principles of British and Continental aviation meetings this year resulted in a financial loss to the promoters aggregating \$100,000, according to a report to this government by Consul J. N. McCann of Glasgow, Scotland. The losses were distributed among the aviation meetings as follows: London, \$40,000; Birmingham, \$50,000; Blackpool, \$75,000; Berlin, \$100,000; and Nice, \$110,000.

At the London, Scotland, meet upwards of 200,000 persons paid admission. Most of the aviators did money at the meetings, and the only result of value which recent flights produced in return for the great expenditure was the popular interest aroused in the aviation.

Joseph Abner Harper Dies at Old Age

NEW YORK, Oct. 3.—Joseph Abner Harper, son of one of the founders of Harper & Brothers, is dead at his home in Inglewood, N. Y., of heart disease. He was 77 years old. For many years he was a partner in the Harper firm, but eighteen years ago he withdrew and retired from active business.

He had spent much time in travel abroad. He was a lover of art and was reckoned one of the foremost judges of paintings in this country.

72 MINERS KILLED IN BIG EXPLOSION

Mexicans and Japanese Met Death When Gases Blew Up in Palu Mine.

MONTEREY, Mexico, Oct. 2.—Latest news from the coal mine at Palu, where an explosion occurred Friday night, indicates that the loss of life will probably be 72 miners, mostly Mexicans and Japanese. Because of the presence of poisonous gases only two bodies have thus far been recovered. The force of the explosion blew down all of the timbers in the stope from the sixth lift to the surface. It blew out the mouth of the stope, lifting twenty feet of surface and closing the mine.

The fan house was also blown down, but the fan and engine were not injured. Entrance was made to the mine through the second opening, but all the ventilating currents and air batteries being destroyed, it was impossible to penetrate to the mine far enough to reach any of the miners.

RESCUERS OVERCOME

The first rescue party was overcome and a second party going to relieve it was also overcome by asphyxiation, but members were brought to the surface and recovered in a few hours.

The rescue helmets, of which the company had a full supply, could not be used, being too large to pass through the only available aperture. This mine was the largest producer of the Coahuila Coal Company and has been shipping about 15,000 tons of coal per month for years. The cause of the explosion has not yet been determined but indications are that it was caused by miners smuggling in some common dynamite instead of using the safety powder furnished by the company.

BALDWIN HEIRESS GUARDED BY GUN

Foster Father of Beatrice Turnbull Will Shoot to Protect Her.

BOSTON, Oct. 3.—Safely back from California, where, it is alleged, an attempt was made to carry her off to Honolulu or possibly to take her life, Miss Beatrice Baldwin Turnbull, the claimant to a large share of the millions of the late "Lucky" Baldwin, will not have to run any further risk of annoyance unprotected. It is declared here.

Her foster father, Dr. William B. Turnbull, of Brooklyn, said yesterday: "I will shoot the first man who makes a move to interfere with her rights. Where the girl and her mother go, I will go hereafter, and you may feel assured that they will be protected. When they go to California I shall accompany them."

"I also assure you that I shall be a walking arsenal. I am convinced that the enemies of the young girl would stop at nothing to defeat her just suit for the Baldwin property."

Miles Predicts Age of Fighting Airships

DENVER, Colo., Oct. 3.—The aeroplane, instead of being an adjunct to the navy, is likely to replace it, so far as coast defense is concerned, is the opinion of Lieutenant-General Nelson A. Miles, retired, who arrived here yesterday.

"The aeroplane eventually will be a means of coast defense," he said. "Aeroplane can be built by the score for what one battleship costs. Their use would greatly curtail the expense of building coast defense vessels. When aeroplanes can fly 100 miles out to sea and drop explosives over hostile fleets, these fleets will be cautious about attacking the coast. And this condition will come."

"Already any nation which goes to war must reckon with the aeroplane. They would be extremely advantageous in reconnoitering and when up seven thousand feet would be practically immune from injury by rifle shots."

New York to Be Center of Fashion

NEW YORK, Oct. 2.—New York City is soon to become the center of the world's fashion, in the opinion of Mrs. Jessie Tober, head of the millinery department of the Household Arts division of the Columbia University, who has just returned from a summer spent in studying prospective styles abroad.

"The American women in Paris are more attractive and artistic in their attire than French women," she says. "The women of Paris admit it, and this fact points already to the prophecy that New York will ultimately become the fashion center of the world."

"Women are soon to wear the hat that most becomes her without regard to the foolish and unbecoming article which style dictates. The hobble skirts will have to go; they are dangerous to the life of the wearer. The freak hat also is about to pass into oblivion."

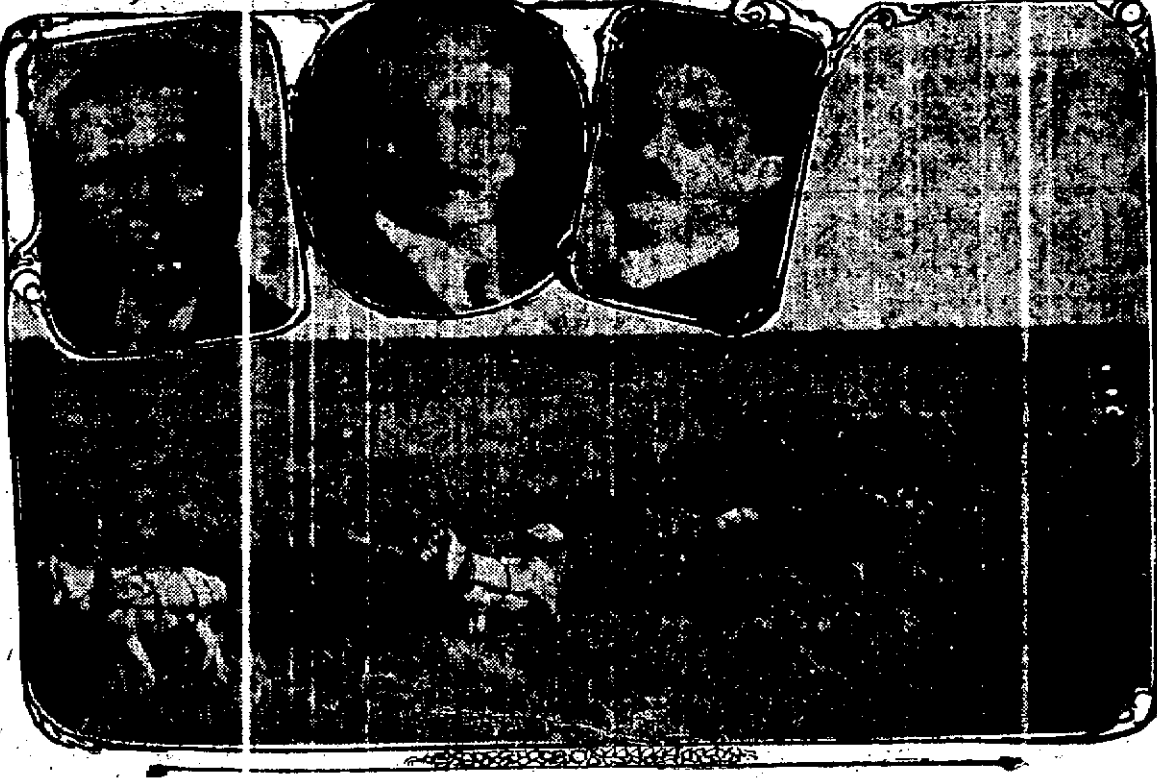

Hoe Art Collection to Be Auctioned Off

NEW YORK, Oct. 3.—With the season of art auctions approaching, definite announcement is at last made that the great and varied collection of paintings and art objects of many sorts, made by the late Robert Hoe, is to be disposed of by public sale here this winter. It is to take place under the direction of the American Art Association. The art property which is to be put up for public competition comprises a most diverse group, and represents the investment by Hoe of more than \$2,000,000 as nearly as can be ascertained.

Piano Recital Given by Talented Children

One of the most interesting piano recitals given this season was that given by the pupils of Miss Lucy Hannibal last Saturday afternoon in Starr King Hall, Fourteenth and Castro streets. Talented young musicians entertained their parents and friends who were very generous in their applause and many compliments were extended to the children who took part in the entertainment.

DRY FARMING PROBLEMS TO BE SOLVED

Photograph showing a combined harvester at work on a dry farm wheat field near Spokane, Wash., and three of the principal figures in the fifth annual Dry Farming Congress. Beginning at the left are: Governor Eberhardt of Minnesota, one of the principal speakers; Congressman F. W. Modell of Wyoming; president of congress, and John T. Burns, secretary-treasurer.

SPOKANE, Wash., Oct. 3.—Delegates are arriving here from all over the world to participate in the Fifth Annual Dry Farming Congress, which opens in this city this evening and which promises to be the most important and interesting meeting ever held in the history of the organization.

The tremendous progress that this system of agriculture has made during the last five years has attracted the attention not only of scientists but agriculturists as well.

As the congress which opens tomorrow the delegates present will represent five billion acres of dry farm land in America, France, Germany, Russia, British South Africa, Australia, India, Turkey, Hungary, Italy, Brazil, Argentina and Algeria. There will also be governors of five northwestern states, three members of congress, representative of six foreign nations, heads of federal and state departments and transportation companies including many prominent agricultural experts.

TO DISPLAY PRODUCTS

In connection with the congress there will be an exposition, comprehensive displays will be made of the products of the field, orchard and garden to demonstrate what has been accomplished in the so-called semi-arid and arid districts of the world. Prizes of a total value of \$10,000 are offered in the various competitions, which are free and open to all dry farmers.

The speakers' list includes the names of many prominent statesmen, scientists and agriculturists.

Congressman F. W. Modell of Wyoming, president of the organization, will formally convene the congress in the Washington state senate chamber on October 3, the delegates and visitors being welcomed by Governor Hay for the state and Mayor Pratt for the city. There will be eight regular sessions and in addition side meetings of the institute sections of North and South Dakota.

Utah, Idaho, Montana and Washington, October 4 to 6, Dr. T. V. Cooke, state director of dry farming in Wyoming, will have charge of sessions for members the morning of October 5 and 6. The meetings are for delegates dealing specific information on dry farming problems, soil culture and seed breeding.

SPEAKERS LIMITED

Speakers presenting oral addresses or papers at the sessions of the congress will be limited to 20 minutes unless the time is extended by vote of the delegates, and following each address the congress will devote ten minutes to questions pertaining directly to the subject under discussion. All subjects not related to dry farming problems will be ruled out of the discussions, unless first presented to the executive committee in session.

The Spokane board of control has prepared a program for the entertainment of officials of the congress and speakers and delegates at the convention, and there will also be a series of smokers, banquets, theater parties and excursions for visiting newspaper writers. The committee in charge is composed of ten representatives of each newspaper in Spokane.

The delegates will discuss legislation favorable to the further development of dry lands, by establishing demonstration farms and experiment stations and ways and means by which the unoccupied agriculture acreage of this and other countries may be made to successfully produce profitable crops.

SUBJECT NOT NEW

Dry farming is not new, and there is nothing spectacular about it. It is the oldest agricultural system in the world; it has passed through the period of proving, by establishing demonstration farms and experiment stations and ways and means by which the unoccupied agriculture acreage of this and other countries may be made to successfully produce profitable crops.

The Dry Farming Congress was not organized to take the place of scientific bureaus of state and federal departments, but established to collect evidence of operative dry farming, act as a vehicle for the exchange of thought, lead in agricultural education along general lines, encourage the discouraged and wield an influence toward greater appropriations of state funds for experimental and demonstration work.

BRANDS GOTHAM SLUMS PARADISE

NEW YORK, Oct. 3.—The slums of New York are a paradise compared to those of London, according to the English Jesuit preacher, who took a prominent part in the deliberations of the recent Eucharistic Congress at Montreal. Father Vaughan came to New York to assist in the consecration of St. Patrick's Cathedral. He had been spending his leisure time in visits to New York's East Side tenement district.

"After spending almost an entire night in the slums of your city I can say that I enjoyed the experience," he declared, in summing up his observations. "I compared your slums with those of a Russian city I know well, and I rejoiced. Here were children playing and dancing in the porches happy and contented. Here I saw Chinese and Japanese were there, all gay and lively."

ARISTOCRATS IN SLUMS

"The children with a slice of melon and a ray of sunshine were richer than your millionaires, more human, more Godlike. The aristocracy of New York dwells in its slums. Children shout and sing and dance around hurdy-gurdies, they scramble away for sweetmeats, they share their treasures as they share their games. The millionaires of your Fifth Avenue are not to be compared with these people; their children are not to be compared with these children. God would feel at home there."

"Your slums of New York are a paradise compared to the dark, gloomy, sunless courts and alleys known to me in the East of London."

Commerce Commission Holds Arizona Hearing

PHOENIX, Ariz., Oct. 3.—Charles F. Getty, examiner for the Interstate Commerce Commission, opened a three days' hearing today of complaints filed with the commission, as follows: By the Maricopa county Commercial club against the Atchison, Topeka & Santa Fe and other railroads relating to passenger rates; by the Arizona Railroad Commission against the Wells-Fargo Company as relating to express rates on race horses from Eastern and Western points to Phoenix; by the Tucson Shippers' Association against the Southern Pacific Railroad relating to freight rates; by Albert Steinfeld & Co. of this city and Tucson against the Illinois Central and other roads relating to freight rates. A number of prominent railroad officials are here.

NEWS OF SCHOOLS

BOYS AND GIRLS

AMATEUR ATHLETICS

LINCOLN SCHOOL TEAMS TO MEET

Basket Ball and Baseball Outfits to Try for Honors of Institution.

The basketball and baseball teams of the Lincoln school are completing arrangements for a tournament to be held October 7 on the grounds of the school, where the pupils of that institution meet for the teams who will enter the tournament, which will be the athletic event of the school term.

The girls of the basketball team will wear gray bloomers and the boys will also don gray base ball suits. There will be five basketball teams composed of girls, who have been practicing for some time for the game, which will be witnessed by the basketball fans of that school as well as from other schools of the bay cities.

There will be no competition on that occasion with outside schools the athletic organizations of the Lincoln school to take part in the out of door sports.

New Phone Company in Monterey Field

MONTEREY, Oct. 3.—Monterey capital, organized and to be incorporated as the Mission Home Telephone Company, is to take over the business of the Pacific States Telephone and Telegraph Company for the Monterey peninsula. Articles of incorporation for the new company will be filed late today in San Francisco. The capitalization of the new company will be \$100,000, and the amount to be paid the parent corporation will be \$40,000.

The new telephone company will include in its service Monterey, Pacific Grove, Carmel, Del Monte and Seaside and will have traffic arrangements with the Pacific States company for long distance service.

Hundreds Flock to New Oil Strike

BAKERSFIELD, Oct. 3.—Stirred by the recent strike of light duty oil in the Lost Hills at a depth of 500 feet, the interest in the whole Devil's Den district has leaped forward until it has reached almost a fever heat. In the last few days hundreds of Kern county oil men have either visited the Lost Hills in person or have sent emissaries there to report. Men returning declare that the zone extends from the north to the south and from the west to the east. One man reported to less than 150 feet on route to the vicinity of the Lake Shore strike, some of them loaded with well-drilling materials.

Less Trouble when you use "A-1"

Greater Success when you use "A-1"

Better Bread when you use "A-1"

More Loaves when you use "A-1"

These are the facts about "A-1" Flour. And the shrewd housekeeper will quickly see that "A-1" is the most economical flour.

Dealers everywhere.

GLOBE MILLS, San Francisco.

CAPTAIN LILA BREARTY OF THE COLE SCHOOL BASKETBALL TEAM

—Arrowsmith photo.

Many competitive games are being planned by the basketball team of the Cole school, who are doing excellent athletic work this year. They expect to win contests and arouse enthusiasm in out-of-door sports in the school. The team will practice every day after school hours, preparatory to a series of games. Miss Lila Brearty, a student in the eighth grade of the Cole school, is captain of the girls' basketball team.

PLAN TO DEFEND MARCHING TROPHY

Pupils of Lincoln School Will Go Through Drill for Cup.

Interest has been awakened in the marching contest, which was recently inaugurated in the Lincoln school under the direction of C. H. Greenman, principal of the school, who announced to the students the other day that there will be a competitive march October 14 among the companies of the seventh and eighth grades, who will seek to secure the trophy.

For the past two weeks the cup has been in possession of Miss Ogden's class and the members of her class will endeavor to defend it.

The companies of the school are preparing to receive challenges from the various schools of the city and according to a statement recently made by Greenman, the boys of his school will be ready within a very short time to compete with marching companies of other schools of this city.

ELLIOTT RETURNS WITH COMPANION

Former Assistant Secretary of Olympic Club Back From Oriental Tour.

SAN FRANCISCO, Oct. 3.—Harry R. Elliott, former assistant secretary of the Olympic Club, who deserted his family and fled from the city six months ago in company with Bessie Birchfield, a well-known belle of the night life, on the Manchuria, bound for the Orient, returned last night on the passenger list as "H. G. Brown of Manila," while the Birchfield woman posed as Mrs. Brown.

Elliott slipped down the gangway to the dock after the rest of the passengers had gone ashore and the vessel was deserted, save for the watchman and a few women on the ship. He was driven to 1256 Bush street, to which number he had been preceded by "Mrs. Brown" and her lord of fourteen trunks and handbags, which were plastered with hotel tags, indicating a long tour through the Orient, with residences at the best hotels.

When questioned as to the whereabouts of Elliott, Bessie Birchfield stated that she had no idea where he was, but thought him in Shanghai or, perhaps, in London. She also denied that he had taken \$5000 which did not belong to him at the time of their flight, as was alleged by his business associates shortly after he disappeared. The money was supposed to have been placed in the bank in his name by a wealthy Englishman who was to back him in the automobile business.

Elliott, who was formerly captain of the Barbarian football team, tennis champion, cricket player and sprinter, became infatuated with Bessie Birchfield some months preceding his flight to the Orient with her. They were often seen about town in the city. The woman was supposed to be wealthy, having come here from Shanghai shortly before the great fire, later on opening a millinery store.

Elliott sent his wife on a trip to Los Angeles before he deserted, and she is now supposed to be staying at San Gabriel with her two children.

It is no secret that countless people who haven't the least patience against the Ten Commandments are growing mighty tired of Teddy's talks. —Kansas City Journal.

BOY SCOUTS TO TAKE FIRST TRIP

Lads to Tramp to Grizzly Peak With Organizer W. A. Horn.

The first tramp of the Boy Scouts of the "First Presbyterian church will be taken next Saturday, when the lads of the Bible school of the church will go to Grizzly peak in company with W. A. Horn, one of the organizers of the scouts and Professor Herli of the philosophy department of the University of California, who will talk about the stones the scouts come in contact with during their trip.

Five lads took the scouts' oath Saturday afternoon and the inaugural scene in the gymnasium when the scouts pledged themselves to comply with the scout's laws was impressive. They repeated the words of the oath standing with their hands raised level with their shoulders, palm to the front, thumb resting on the nail of the little finger, and the other three fingers upright, pointing upwards. They also gave the scout's salute by raising their right hand shoulder high.

Original Stories By Young Authors

EDWYN JOLLY, 14 YEARS. The Boy Who Saved the Limited.

A boy with his dog were going through a field one evening in June. As they were going over a ridge, Dick the boy, noticed a man with a roll of blankets on his back, bending over a rail on the railroad track. He had a lantern with him that flickered in the breeze. This man had the appearance of a tramp. He seemed to be loosening a bolt.

Dick thought his movement were suspicious, so he decided to see what he was doing, so he cautiously crept close to the tramp and found he was loosening a rail. He was undecided what to do; at last he decided he would try to scare the man away, so he set up a shout, the man was taken by surprise and took to his heels, leaving his tools and light. Just then Dick heard the limited whistle at the curve, a half mile down the track. He picked up the lantern and ran down the track, swinging the lantern as he went.

The train was about 300 yards from the break when the engineer appeared to notice the boy. There was a grinding of brakes and the train came to a stop ten feet from the break. The engineer saw Dick and thanked God he had not run into it.

Some of the men went after the tramp; Dick set his dog on the trail and in about an hour they came up to the man. The dog had treed him. The tramp was tried and convicted. Dick was given a reward of a thousand dollars by the people on the train.

Liners Quarantined; Due to Cholera Scare

NEW YORK, Oct. 3.—Because of the cholera scare in Europe, two incoming trans-Atlantic liners, the Lapland, from Antwerp, and the Perugia, from Naples, were delayed at quarantine last night for inspection.

Two deaths occurred on the Lapland during the voyage—that of Dr. Samuel Theil, a first class passenger, whose address was not given, and that of a child in the steerage. While neither case suggested cholera, the vessel was held as a precaution until a bacteriological examination can be made.

The illness of a quartermaster caused the detention of the Perugia.

MAN WHO REVISED CREED PASSES AWAY

CLEVELAND, Oct. 3.—The Rev. Dr. Samuel P. Spracher, known for having brought about the revision of the Presbyterian creed, was buried here today. At the 30th convention of the Presbyterian Church in St. Louis he made a speech that brought the conservative section over to the progressive side. Later, with former President Benjamin Harrison and others, he revised the creed. He died Saturday.

PULL OUT A HAIR

The Way to Tell Whether or Not Your Hair Is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic. You can make a test yourself that will tell you whether your hair is healthy or not. Pull a hair out of your head. If the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt treatment. If the bulb would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try our Rexall "98" Hair Tonic. We promise that it will not cost anything if it does not give satisfactory results. Rexall "98" Hair Tonic is designed to overcome dandruff, relieve scalp irritation, stimulate the hair roots, tighten the hair already in the head, grow hair and eradicate baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 88 heads, which would give sufficient proof that Rexall "98" Hair Tonic contains extraordinary remedial and hair-growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you to try it at our risk.

Rexall "98" Hair Tonic is a clean, clear preparation which does not grease, gum, thicken the hair, and it has a very pleasant odor. We have it in two sizes, prices \$5 and \$1.00. Remember, you can obtain Rexall Remedies only at The Owl Drug Co., Inc., 10th and Washington, 12th and Broadway, 16th and San Pablo.

BUFFALO BILL DIES ADIEU TO SHOW WORLD

Noted Plainsman Says Farewell to Many Oakland Friends.

WILD WEST GOES TO SAN FRANCISCO

Thousands With Final Performances in Big Tent on San Pablo Avenue.

Yesterday afternoon, while 12,000 people were cheering, at the successful performance of the Wild West show in this city, Buffalo Bill, on an Arabian steed, as trained and almost as courtly as himself, bade adieu to the local museum world which has known him for almost half a century.

The term "farewell tour" is not a welcome one with most patrons of amusements, for the reason that there has been so many announcements of tours of that kind, which were really impositions on the public.

WILL NOT REAPPEAR.

Such is not the case with Buffalo Bill. So far as Oakland is concerned Buffalo Bill will never again be seen here as an entertainer. It would be a cruel irony to refer to him as a showman. But there are hundreds of other towns in various parts of the country in which Buffalo Bill is as well known as he is in this city, and these towns are expecting a visit from him before he retires into private life, for which he has been seeking for many years, regardless of the fact that he is one of the most sought for men in the nation at the present time.

Buffalo Bill links the present with the past. He has been and is one of the best historians which the United States has ever known. He was a fore-runner of the western part of the settlement of the agency of living human beings, how that settlement was effected.

BROUGHT PEACE.

Cody was one of the great factors in bringing about peace for all time between the red man and the white people of this nation. For years he has been allowed by the government of the United States to take through this country and not only through this country, but also to the countries of Europe, members of the Indian tribes with which the people of this country have at times been at war.

He has treated the Indians, their squaws, their papooses, with gentleness, consideration, humanity and honesty. He has made every one of those aborigines feel that he was their friend and that the white man was also really their friend. He learned that the red man wanted to be treated honestly. He convinced him of the fact that the white man desired to treat his red brother in that manner and, as a consequence, the feeling of unrest which for years had existed among the Indians has been removed and the former savage of the plains is nearer now to civilization than to the civilization which has been so long deferred.

A GREAT SHOW.

In the great show which was given yesterday by the unrivaled organization which is under control of Buffalo Bill and Pawnee Bill, there were many features on the program and there was not one of them which was without a peer in any other performance.

The horses in themselves, represented a fortune. They were the finest of their kind. Their riders were no less than art of horsemanship and it must be said that the women in the arena performed, regardless of the fact of whether they appeared as cowboys or as dancers, belonged to a class which, for excellence, has never been seen here before.

GOES TO SAN FRANCISCO.

The Wild West, for the next four or five days, will be in San Francisco and there is no doubt that there will be hundreds of people from this city who will make trips across the bay to witness it.

With the show in this city were Major Jack Burke, who, for more than a generation, has been connected with Buffalo Bill. During that period, wherever Cody has gone, Burke has gone also. Between Cody and Burke exists what is known as the feeling which is supposed to have existed between Dickson and Pytlis. Cody knows when a feature in his show "takes" and he certainly knows when a representative "takes." So, for the reason that there is not the slightest doubt that Major Burke is the best known, best informed and most experienced man in the show world in the country.

The present tour has brought to the attention of the people of the coast, Larry Bradley, a gentleman who hails from Kentucky. He is a member of one of the best known families of that section, which has a number of branches in the northern part of this country. Nearly all of the latter are in professional life. Mr. Bradley is one of the brightest and most successful journalists in the country. He has been high in authority on the staffs of the leading New York papers and is at the present time a contributor to the well known magazines of the metropolis and his knowledge, as a newspaper man, and author rendered him of particular usefulness on the staff of the clever men which Buffalo Bill has assembled about him.

BABY KILLED.

REDDING, Oct. 3.—Aught under the weight of a large silver press that was accidentally toppled over on him by his playmates, the three-year-old son of Fleming Brown of Livingston, Trinity county, was crushed to death Saturday night on his father's ranch.

IT'S THE WORLD'S BEST. No one has ever made a salve, ointment or cream so famous as the one known as the "World's Best." It is the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Rashes, Eczema, Salt Rheum, Fox Sore, Lysol, Gold Sores, Chapped Hands, or prunes, it's supreme. Infallible for all skin troubles. Sold everywhere. Only 25c at the drug store. Buffalo Bill and Washington Broadway and Twelfth and Washington streets.

Thousands Crowd Idora Park to Hear Ellery's Band and Visit the Concessions

EASTERN VISITORS HAVE MERRY DAY

Music of Speakers of English on Program for Wednesday Night.

Notwithstanding the counter attractions on this side of the bay, one of the largest crowds ever seen at Idora Park in the month of October was out at the resort, yesterday, to enjoy the concert by Ellery's band and to visit the many concessions which dot the park.

The program by the band was a special one and included selections from the works of the greatest masters of music. The crowd was not alone in appreciating it and the visitor from eastern states marveled at a concert given in the open air in October with the weather so warm that coats were an incubation. An excellent program is on the bill for this evening in the way of musical entertainment. The piano composers will have an inning and among the selections that will be heard are those by Schubert, Nevin, Rubenstein, Grieg and Tchaikowsky.

REGULAR SYMPHONIES.

The regular symphony concert will be the attraction for tomorrow afternoon and for the balance of the week it will be a round of classics, embracing the Italian and German.

The music of the speakers of English is what Ellery calls the program that is slated for Wednesday evening and it promises to be one of the best of the week—if any may be called the best. The afternoon of Thursday will be devoted to French and Slavic music. Wagner will predominate Friday evening and Saturday night will be a cosmopolitan evening, making a fitting finale to the week.

All in all it promises to be one of the best weeks ever seen at the park from a musical standpoint and it is safe to say that few will miss it.

ALASKAN OUTPUT SHOWS DECREASE

Just \$15,000,000 in Gold Taken Out of Northern Mines in Year.

SEATTLE, Oct. 3.—The first estimate of the season's gold output from Alaska, made by the Alaska-Yukon Magazine, anticipates a reduction of more than \$5,000,000 for this year's output of \$20,000,000. The estimate is \$15,000,000. The decrease is in the Fairbanks district, where there has been a dry season and where the beginning of dredging mining on the low-grade ground has not yet commenced.

A considerable decrease of the Nome output is also anticipated, as placer mining there has now resolved itself into a dredging proposition. Fifteen new dredges have been installed on Seward peninsula this season, which should greatly increase the output next year. In the smaller and newer districts there are increases all around, a considerable part of which is due to the development of lode mining. Klondike gold is no longer shipped to Seattle.

DISTRICT OUTPUT.

The output by districts, as estimated, follows:

Fairbanks district.....	\$ 5,000,000
Southeastern Alaska (including the Treadwell).....	4,500,000
Northern Peninsula.....	8,000,000
Iditarod.....	200,000
Kobukuk-Noatak.....	200,000
Koyukuk.....	200,000
Yukon and remainder of Alaska.....	200,000
Kenai Peninsula and Sitka.....	400,000
Prince William Sound.....	100,000
Copper River Valley and Nislin.....	100,000
Coast placers and miscellaneous.....	100,000
Total.....	\$15,000,000

Berkeley Personals

MISS MARY BARNEY, who has been connected with the San Jose public library for the last thirteen years, will arrive in this city next week to take a position in the local library, in charge of a department.

DWIGHT PHILLIPS spent a few days last week visiting his father in Red Bluff.

MRS. J. H. AYDELOTT has returned from Santa Rosa where she spent the first of last week on Judge Bridges.

F. S. SCHONEMANN returned yesterday from Placerville after spending several days there on business.

MR. AND MRS. HUGH HOGAN spent several days in Placerville recently and returned last of the week.

MISS ANNA ROBERTS, formerly a resident of Chico, has been spending several days there recently.

MISS MAUDE LANCASTER has returned from Red Bluff, where she visited with friends for a short time.

F. M. BLODGETT returned yesterday from a several weeks' business visit in the northern part of the State.

MR. AND MRS. PETER GARNETT and family, having been in the city for the summer near Willows, arrived last week.

MR. AND MRS. E. SWIFT, who have been the guests of friends in Fairville, returned yesterday.

MRS. M. A. BECKETT spent a few days in Sacramento visiting with friends last week.

MR. AND MRS. J. E. OMEREA have been visiting with friends in the vicinity of Healdsburg for a few days.

THOMAS J. WARNER returned yesterday from a few weeks' business visit in Placerville.

W. WAS SMETTER spent a few days in Sacramento on business the last of the week.

FRED E. SMITH went to Grass Valley yesterday, where he will be absent for a short time.

MAX SELZER returned recently from a vacation spent with his mother near Fresno.

MRS. M. BOCKOUT has come to Winnemucca, Nev., where she will visit with her daughter for a short time.

MR. AND MRS. WILLIAM HOBBS of Alameda, accompanied by several Oakland friends, spent a few days in Hollister last week.

MR. AND MRS. WAGG ADAMS have returned from Concord, where they spent several days.

W. M. WILLEY has returned from Los Angeles, where he went on business some time ago.

MRS. J. HILL is visiting with friends in Martinez for a few days this week.

MR. AND MRS. J. C. PENDALL, who have been spending several days in Sacramento, returned yesterday.

MR. AND MRS. T. F. KELLY will leave tomorrow for Yreka, where they will visit with relatives.

MISS LOUISE REAVILL spent the week-end with friends in Red Bluff.

SIGNOR MANFREDO. French horn player of Ellery's band at Idora Park.

SAILORS MOURN MISSING MASCOT

"Skiki," Bulldog of Mayflower, Overstays Shore Leave to Sorrow of Men.

NEW YORK, Oct. 3.—There is sorrow on board the United States Mayflower, known as the President's yacht, which is being overhauled at the Brooklyn navy yard. "Skiki," the Mayflower's mascot, is missing and it is feared that he either has been stolen or has met some evil companions. He has not yet overstayed his shore leave to the point where he can be termed a deserter, but the master at arms will take him in charge whenever he is found.

"Skiki" is the bulldog presented to the crew by Mrs. Roosevelt. He is rated the ship's champion swimmer and is entitled to medals for life saving. On two occasions he saved the lives of men who were overboard.

In a notice sent out by the crew offering a reward for his return, "Skiki" is described as being "all bulldog, weight about 50 pounds, head about 11 inches above the ground, the black and white and has one black ear."

Boy Saves Brother From Mountain Lion

CHICO, Oct. 3.—Standing within five yards of an adult mountain lion, which was snarling over the body of a half wild pig it had just killed, Charles Graham, 17 years old, hurled a hatchet, his only weapon, at the brute's head.

The sharp blade severed one of the lion's ears and cut a gash in the scalp.

Blinded with rage, it made a leap at the fearless youth, landing at his feet. As it crouched for another spring, Edward Graham, 17 years old and brother of Charles, who was fifty yards distant further up the hill, shot the lion dead, saving the younger brother's life.

Arbitration Board to Decide Land Fight

EL PASO, Tex., Oct. 3.—Judge Walter P. Grant, chief counsel for the government in the Chisnel zone dispute between the United States and Mexico, arrived here yesterday to arrange for the sitting of the arbitration board. The dispute involves about 300 acres of land, including about one-fifth of the area of the city of El Paso. The property value is placed at \$8,000,000 and about 6000 persons are affected.

ANNOUNCEMENTS

SAGE FOR DARKENING THE HAIR.

There is nothing new about the idea of using sage for restoring the color of the hair. One great-grandmother kept her locks soft, glossy and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderful beneficial effect. Nowadays we don't have to resort to the old-time, tiresome method of gathering the herbs and making the brew. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product. Wyeth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by all first-class druggists for 50c. and \$1.00 a bottle, or sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

AMERICA LEADS IN COAL PRODUCTION

With Fewer Persons United States Digs More Than Europe.

WASHINGTON, Oct. 3.—From figures on the world's coal supply in a recent British publication, the Bureau of Manufactures of the Department of Commerce and Labor has compiled statistics showing that the United States, with 690,458 persons employed in mining coal in 1908, produced 126,562,000 tons of coal more than were produced by 365,204 persons similarly employed in the United Kingdom and that the production of coal in the United States amounted to 839 tons per person employed, as against 271 tons produced per person in the United Kingdom.

Based upon reports of 1906 and 1909 the total production of coal in the United Kingdom, the United States, Russia, Sweden, Germany, Belgium, France, Spain, Austria, Hungary and Japan for 1909 was estimated at 368,674,036 tons, with a total value at the pit of \$1,581,323,493 and an average value per ton of \$1.93.

CONSUMPTION GREAT.

The number of persons employed in producing the coal was 3,112,110 and the average number of tons per person 294 produced.

In regard to the coal consumption of the several countries, the report says: "The consumption of coal in the United States is more than twice as great as that in any other country and nearly equals the combined consumption of the United Kingdom, Germany, France, and Belgium and is actually greater per capita than in the United Kingdom."

TRAIN DERAILED.

DENVER, Colo., Oct. 3.—Denver and Rio Grande train No. 2, known as the Atlantic and Pacific Express, was derailed while running through the yards at Helmer, Utah, early yesterday. The tender and one car left the track. No one was injured. About ten hours delay in traffic was caused.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Ford, 2207 W. Franklin St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. E. C. Pinkham,

PORTLAND MANAGER DEFIES OFFICIALS IN HETLING CASE

Uses Player After Orders Not to Do So and Puts in Silly Claim That He Is Right; Always Was a Mischief Maker

By BERT LOWRY.

TELEGRAMS IN HETLING AFFAIR

FROM W. W. MCCREDIE TO JUDGE GRAHAM:

"Spokane never had authority to sign Hetling. Under contract with us all season and on our reserved list. Let Oakland or anyone else show any release from us. We can't lose a player by someone else's act. Spokane contract void if it exists."

FROM JUDGE GRAHAM TO MCCREDIE:

"If the contract between Hetling and Spokane was entered into without the knowledge or consent of the Portland club, then Hetling can only be classified as a contract jumper and as ineligible and disqualified under Article 23: National Association rules. If Spokane negotiated with Hetling without your consent then the Spokane people are liable to a fine of not less than \$100 or \$250. Article 16, Sections 1 and 2 National Association rules. I am of the opinion Hetling is ineligible and disqualified from playing with Portland club."

The one big thing in baseball right now is the controversy over player Hetling. Every fan is familiar with the position McCredie is taking in the matter and his open defiance of the instructions of the president of the Coast League. Judge Thomas F. Graham is creating much speculation as to the outcome of the affair.

The northern manager played Hetling Saturday and stated that he will continue to play Hetling, orders or no orders. Every rule of baseball shows that McCredie has broken faith with the managers of the Coast League. The telegram of President Farrell of the National Association proves that Hetling is an ineligible player. He is a member of the Spokane team, under a non-sale contract signed, approved and filed in the records of the secretary. The claim that McCredie did nothing but loan him to the northwest club is all bunkum. If such was a fact, why don't McCredie produce those papers and for once and all settle the argument?

To the writer, it looks like another one of those McCredie tricks. It is some years since he tried to play Hetling and Jud Smith on the same team. When they both belonged to Los Angeles in an endeavor to keep the pennant from California. While McCredie has been posted as a game spotter, there is no evidence to show that he is one, for he has been a habit of his to play just such tricks as these before.

To the man up a tree or elsewhere, it looks very much as if McCredie is looking for an excuse, if he don't win the pennant. It is his hue and cry, backed up by a lot of cheap publicity, that the Beavers have always got the worst of the deal in everything from the California. Everybody knows that this is like the ravings of a wild man, without foundation.

In a grandstand rally of what the south is doing to the north comes a tale about outlaw baseball. If the protested games are given to Oakland. This is a threat, pure and simple, but will not sway Judge Graham.

F. G. PHILLIPS' YACHT MONSOON WINNER OF THE CUP RACE OF THE SAN FRANCISCO YACHT RACE.

NATIONAL COMMISSION CONSIDERING PLAYING OF WORLD'S SERIES

CINCINNATI, Oct. 3. — The National Baseball Commission met here today to undertake final arrangements for the world's championship series between the Chicago National League champions and the Athletics of Philadelphia, winners of the pennant of the American League.

There is a possibility that the commission will take notice of the report that a third major league is in process of organization. D. A. Fletcher of this city, who attempted to promote a post-season series between all-star teams of the two big leagues, has announced that he has obtained the signatures of 29 star players to contracts with the proposed new organization. A copy of the contract offered to the players has reached the commission and some pronouncement thereon in the way of an official warning to players listed under the national agreement may be forthcoming.

This matter, however, is more or less subsidiary to the post-season contests between the two leagues. Chief interest regarding the world's series centers about the choice of time and place for the initial game. With this determined it is likely the second contest will take place in the same city, third and fourth in the alternate town and so on until one of the teams has won four games and the title of baseball champions of the world.

MONSOON IS FIRST OVER LINE IN SAN FRANCISCO YACHT CLUBS' BAY RACES

The Moonsoon was the winner of the principal feature in the races held yesterday by the San Francisco Yacht club for the A. B. Sprickles cups. The yacht sailed over the channel course and the Moonsoon defeated the Challenger for the class C prize by five minutes and six seconds.

The Vixen sailed better than she has done since she was built and easily won the race for the smaller boats. The Vixen won handily in the class B race. The times of the yachts were as follows:

Class	Yacht	Time	Cor.
Class A			
	Vixen	3:10.41	15
	Pronto	3:24.30	10
	Phoenicia	3:25.20	10
Class B			
	Neve	3:30.00	10
	May	3:30.52	10
	Anglo	3:35.15	10
	White Horse	3:35.25	10
Class C			
	Moonsoon	3:30.42	10
	Challenger	3:35.48	10
	Martha	3:43.13	10
	Chipsa	3:50.10	12

SPORTSMEN REPORT DUCK HUNTING GOOD IN MANY PARTS OF COUNTY

With their game bags well laden with various species of ducks and their ammunition pouches well emptied, a host of tired, though happy, hunters returned to the city last night on the late trains from all sections of the river and bay district, where it is reported that not for years has there been such sport during the opening days of duck season.

In nearly every instance, parties who spent Saturday afternoon and Sunday among the marshes along the river or in the open bay took the limit, but few of them report poor luck.

Quail was also found in abundance in the hills back of Berkeley and several limit bags were taken. It is reported that Saturday and Sunday were the best days for duck hunting in the county, having been somewhat cloudy and the birds in the right humor to wander about.

Contrary to general expectation results at "the bridges," a famous duck hunting ground in past days, and at Alviso were meager on Sunday. The Saturday bombardment shot at the bridges, however, was a combined spring and mallard limit at "the bridges" on Saturday morning. Oscar Finckel and Jack Snyder made a limit limit in the same district. Alviso marsh duck hunters, many of them, added rail and various shore birds to their strings.

SEALS MANAGE TO GET TWO GAMES OF THE SEVEN CONTESTED

Morning Game Is a Quitting Affair, While Errors of Catchers Spoil Other.

STANDING OF THE CLUBS.

	Won	Lost	Pct.
Portland	95	75	.558
Oakland	102	83	.552
San Francisco	98	89	.519
Vernon	91	92	.497
Los Angeles	90	98	.478
Sacramento	70	100	.390

MORNING GAME

Sacramento left for Portland last night with five of the seven games played with the Seals tucked away in the won column. Yesterday the men from up country split on the double-header with the men from over the big waters, the first contest being a 4 to 3 Seals victory. The afternoon affair, a 6 to 3 San Francisco victory.

Oakland is the banner baseball town on this coast, bar none, for there is a city hereabout that will turn out four thousand to a hundred people to witness two foreign ball teams play as did the fans of this metropolis yesterday at Freeman's park.

It was an enthusiastic crowd, too, and good plays were as liberally applauded as bad ones. As to the game, it was a good, very good, until the tenth inning, then the Senators made a final all-out effort, for the Seals, or at least some of them, quit. Maybe it was a case of hunger, for the Seals were a tired feeling brought about from a too strenuous session the night before. Whatever it was that caused the Seals to back up it was a case of quit.

AFTERNOON GAME

Up to the tenth inning the game was being played with more or less speed on the Senators' part and indifference on the Seals' part. In the opening of the tenth the finish came. Shinn started the business with a double to left. Berry cut in with a single to center. The Seals' easy one to Hank Shaw, who will make his regular boot some time during the season, he landed the ball in the right field away from Berry. Shinn scored and Berry said, "I'm through." Heister gave him the check to the clubhouse, and the youngster hit to Heister, he blocked the ball and let it lay where it fell. Shaw, too, was out. Heister then hit to center and Van Buren walked to the rubber and Heister went to second. By jolting the Seals and hitting the Seals, the Seals' hit and Heister made the third run for the inning.

Local Men in Wright's Billiard Tournament

At "Chick" Wright's billiard, theater the third semi-amateur 14-2 ball-tie championship of the Pacific Coast will be started tonight. Eight players are entered and as the pick of the San Francisco billiardists will handle the cues, it is in view of the fact that two of the players already have won a tournament. The trophy is one that has been offered by a billiard table manufacturer and the player winning three tournaments will become the owner of the silver trophy. E. J. Shiner and R. B. Brunner, two of the men entered, are the men who have a tournament to their credit. This adds a little spice to the coming tourney. Money prizes aggregating \$155 have also been offered to the winner, the place man and to the players making the high average and the best general average. Following are the entries:

R. B. Brunner, E. J. Shiner, Dr. C. B. Burns, F. Coffin, A. Chapman, M. Davoust, R. E. Eichen, B. E. Hughes, J. Adams, will be free.

OAKLAND WHEELMEN SEEKING TO MATCH BURNS AND BAKER

These Two Would Make a Clever Contest and Fans Clamor for Bout; Frayne's Friends Elated Over His Eastern Success

By EDDIE SMITH.

JUST as soon as "Demon" Kline posts the \$500 that he has talked so much about with a responsible stakeholder the match is as good as made," said Jack Perkins yesterday when asked what had been done in the Frankie Burns-Baker match. This will mean that the Oakland Wheelmen will stage this speedy pair at their show this month. Perkins makes no bones about the regard he has for Baker's ability as a boxer. He admits that Harry is a clever fellow, with a world of experience, and for the reason he will not send his man into the ring to battle with him unless there is sufficient money in sight to make it worth the while. That is the reason, Jack says, that the side bet and forfeit must be posted before he will talk business.

Kline has said that he will post his money either this afternoon or tomorrow morning and will be ready to talk terms with Perkins at any time. The manager of Burns finds it convenient. That Baker and Burns would make a great match and a good drawing card there can be no doubt. Both men are as fast as a bullet, are exceedingly clever and while neither is a crushing puncher their work is of the character that is highly exciting. Sooner or later this fight must be made, for Baker will keep at the heels of Burns and "One Round" Hogan so much that he will make life a burden to the youngsters. He wants a match with either or both, and it is just as well that Burns take his chances at the clever Hebrew now so that in case Hogan gets away with Antonio La Grave and the Volgaist, matcha falls through he will be the logical candidate for the Hogan match. If the Wheelmen Club and Baker and Burns they will stage the contest about the middle of the month.

FRAYNE'S SHOWING PLEASED HIS FRIENDS.

The showing made by Johnnie Frayne against Harlem Tommy Murphy at New Orleans, where he secured a ten-round draw with the New York, was a surprise to the fans and as good news to his many friends. When Johnnie was beaten by Lew Powell, after making two championship caliber showings against Hyland and Young Corbett, it was announced that he was suffering from rheumatism and he was forced to take a long lay-off.

When Frayne finally did round to condition that would warrant his taking another chance in the ring he met Jimmy Fittion at the West Oakland Club. Frayne won the battle but his showing was not up to the standard he hit made before his forced retirement and the fans agreed, in the great majority of cases, that he had been in the ring in the class of his credit Johnnie. To hold Murphy to a draw is not an easy thing and Frayne has boosted himself into the front ranks of the light-weight division by cutting the fight. If Frayne has come back to the ring to make credit, for it was hard work and he deserves it all, he can get for his hard work.

VERNON FORFEITS A GAME, BARNEY OLDFIELD BREAKS ANOTHER WORLD'S RECORD

SPRINGFIELD, Ill., Oct. 3.—In the automobile races at the Illinois state fair today Kerch, driving a 100 horse power Da. Jacq, broke the three-mile circular track record of 10:00.00. Kerch, broke the one-mile state record. Time, 51 seconds.

LOS ANGELES, Oct. 3.—Walter Nagle was beaten for the second time this week by Vernon when he lost the afternoon game yesterday to the Tigers, 3 to 0. Carson for the winner was all but invincible, holding the Angels to three singles.

Umpire Van Haltrn forfeited the morning engagement, 9 to 0, to the Diligence when he passed a label on Hogan reading "Dilatory." With the score reading 2 to 1 in favor of Los Angeles at the finish of the first half of the tenth and nine minutes of the time limit remaining to be played out the "Dilatory" chief umpire was stalling measures to become so raw that they cut Van's official dignity.

The game at the Chutes in the afternoon was for six innings. The game was a close one, but Carson and Diligence played in the seventh put the Santa Rosa boy out of the inning. Diligence gave Nagle and Diligence something to say as when he hit a single and scored. Diligence hit a home run, but Diligence hit to second. In trying to pick Diligence off second Nagle turned and made a perfect throw to the bag Nagle muffed the ball, which rolled to the outfield. Diligence going to third. From there he was squeezed in by Roy Dinshear, who bunted himself out.

The knockout for Nagle came in the eighth, when he was pitched a perfect real high life. Diligence pulled off the stunt that has made that family famous when he dropped the ball over the left field fence for a home. The next two men were easy stunts, but Diligence drove a sharp single to center. Carson walked off the first base and slowly trotted down to second, with nine Angels staring in their tracks like woodpeckers. Carson's runner a double to right, scoring the "holder."

St. Mary's Ball Players Have Practice Games

There was plenty of baseball at the St. Mary's campus yesterday afternoon. St. Mary's Varsity and the Collegians, representing the second and third teams of St. Mary's College, respectively, took on the Crane Company team of San Francisco and the Ashland team. The first game, between the Varsity and the Crane Company, resulted in a victory for the latter team with a score of 5 to 7. The batteries were as follows: Varsity, Rose and Cooney; Crane Company, Paulson and Rioner.

The second game, between the Collegians and Ashland, was won by the Ashland team, by a score of 4 to 6. The batteries were, Collegians, Ross and Miller; Ashland, Beach and Broad.

THE PRICES SHOW ADVANCE

Decrease in Amount Exported
Shipped Is Cause; Scatter
in Corn Purchases.

CHICAGO, Oct. 8.—A big decrease in amount of wheat on ocean passage had scarcely to do with making price advance today.

The lightness of shipments to Great Britain was reported to have led to some such deficit supplies. There was a fair export of burley here in consequence and shorts were cited to cover. The opening was up to 1/4c higher, with December extended the entire range at 97c to 97 1/4c. Late market touched 97 1/2c.

There was some further advance, but selling increase in the American visibilities led to a decline. The close was a net advance of 1/4c.

Oats were rather quiet, but the to steady. December opening 1 1/2 @ 14c up at

to 27 lbs. in provisions, but a fair demand at the lower level. First sales were made at 10¢ for 100 lbs. of the pink, \$10.00 for lard and \$0.35 for ribs. The closing quotations were as follows:

Commodities	December, 1914	January, 1915
Corn—December, 20¢	19¢	20¢
Barley—December, 25¢	24¢	25¢
Pork—January, \$17.42	16¢	\$16.92
Lard—January, \$10.62	10¢	\$10.12
Ribs—January, \$1.10	11¢	\$1.10
Wheat—January, \$10.92	10¢	10¢

9.75
Ribs—Cash, 74¢; December, 74¢.
Barley—Cash, 60¢; 70¢.
Pork—Cash, \$15.50; 50¢; October, March, 50.35.
Clover—Cash, \$11.11; 14¢; October, \$15.00; 14¢. The market is very strong on export basis and in-bag freely sold. Feeding requirements and price of pork are the main factors which would operate on all declines. W. would prefer corn on all declines.

J. H. Wrenn—While at the moment the market is very strong, the feeding requirements for a hopeful view there

Walzer Fitch & Co.—The wheat market has been pretty well liquidated, but with the lack of demand and increasing stocks a further decline is probable. There is no prospect for selling to be renewed in any fair degree.

CURIOSITY LED
TO HIS DEATH

Farm Hand Cranks Automobile, Which Runs Him Down.

CHICAGO, Oct. 3.—Curiosity in the part of James Stahl, a farm hand, 30 years old, in finding out about the contents of an automobile left standing in the road in Worth, a West Side suburb, resulted in his death yesterday when the object of his curiosity ran him down and killed him.

The automobile was left standing in the road by a party seeking mushrooms in the woods nearby. Stahl happened on the numerous levers and then stepped to the front of it and turned the starting crank. The heavy machine bore down and crushed him heavily as he stepped aside. It then ran down a steep hill.

The occupants of the machine heard the cries of the dying man and rushed to the road to find their machine a wreck and Stahl dead.

Pastor Disappears; Police Take Up Hunt

CHICAGO, Oct. 3.—The police have been asked to search for Rev. Ira C. Mallory, pastor of the Congregational church at Mason, Ill., who, it is feared, has just fled.

Rev. Mr. Mallory left his home September 27, intending to make a trip to Boston. He wrote to his son, Charles Mallory, of this city, that he would return Chicago the night of the 27th and remain a few days at his home.

Attempts a Homicide and Commits Suicide

BUREKA, Oct. 3.—After attempting to murder Captain James Hedges on the city street yesterday, a woman, a wood foreman, hid behind a pile of wood and, while the officers were searching for him, sent three bullets into his head. He died instantly. The woman, who was slightly wounded by the bullet fired by Bowman, No reason is given for the woman's act.

You Can Interest Him

Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not be yet old, he has a very definite and a very real feeling of the need of a tonic.

He will notice among other things that the stomach is a very delicate organ and one from the stomach he is possessed at twenty-five. That greatest cure must be exercised as to what is eaten and how much of it, and even the best of care, there will be increasing digestive weakness with advancing years.

He will notice among other things that the stomach is a very delicate organ and one from the stomach he is possessed at twenty-five. That greatest cure must be exercised as to what is eaten and how much of it, and even the best of care, there will be increasing digestive weakness with advancing years.

LIGHTNING TUMBLERS:
HEAD BILL AT BELL

Whirlwind feature of the Bell Road Show this week.

If you want to see the fastest tumbling you ever saw in any vaudeville performance, or anywhere else for that matter, go to the Bell Theater this week where the big road show is on and watch a short, chunky fellow named Saad Dahdah, a troupe of Arabs. No other hand-springer or tumbler who has ever exhibited on the Coast has ever attained the lightninglike speed of this chap, who looks like a Japanese, although presumably an Arab. His revolutions are faster than the eye can count. The Saad Dahdah troupe numbers eight and they build pyramids, one man supporting the seven others, and turn a whirlwind lot of tricks that go with a snap and a bang.

In addition, the road show furnishes one of the best vocal quartettes that has ever appeared in Oakland. This is the Five Sisters Four, a quartette of lively ones, who proceed to get action the minute they put in an appearance. Aside from the splendid vocal numbers, the troupe has a great lot of tricks that go with a snap and a bang.

The women and children particularly like the feature supplied by Miss J. J. and the fine show she presents with her trained Angora cats and monkeys.

From the old Royal Opera House at Messina come the Venetian Street Singers. This is their first American appearance and that they are creating a sensation is to be expected. With their picturesque costumes and their sweet voices, heard both in solo and concert numbers, they are proving one of the most entertaining numbers of the week's great bill. Arnold and Edith, a musical comedy duo, are also featured.

JEWISH NEW YEAR
BEGINS TONIGHT

Yom Kippur Services to Be Held in Synagogues; Music by Boys' Choir.

At sunset this evening Yom Kippur, or New Year, services will begin in the synagogues of this city and will be continued tomorrow morning. The annual religious festival of the Jewish merchants will close their establishments for the day and attend the sacred rites in the synagogues.

The First Hebrew Congregation, Twelfth and Castro streets, services will commence at 6:15 o'clock this evening, and tomorrow morning at 9 o'clock, when Rev. Dr. M. Friedlander, rabbi of the congregation, will conduct the ceremonies. In that house of worship a double quartet will furnish the musical numbers, which will be sung in Hebrew. Devotions in Beth Jacob synagogue will commence at 6 o'clock tonight and 8 o'clock tomorrow, when Rev. Dr. Meyerowitz, rabbi of that synagogue, will deliver the sermon and direct the observance.

A boys' choir, composed of lads of the Sabbath school of Beth Jacob synagogue, will give the vocal program during the day. It will prove an innovation in that house of worship, as the congregation has never heard music on that important day in the synagogue and the sweet melodies under the direction of Rabbi Meyerowitz, who organized the choral society.

On October 13, the day of Atonement will be celebrated in the synagogues. It is considered one of the most important days in the Jewish calendar and is the day of fasting and self-abnegation.

New York Hebrews
Celebrate Holidays

NEW YORK, Oct. 3.—The advent of the Jewish New Year, 5671 in the Hebrew calendar, will be celebrated at sunset this evening and tomorrow by special services in all the temples of the Hebrews Jews at the synagogues of the orthodox throughout the world.

The festival is known as Rosh-Ha-Shana, the beginning of the civil year. With the single exception of Yom Kippur, or the day of atonement, which follows quickly upon it, the festival is more generally observed than any of the other feasts in the Hebrew calendar.

During the celebration of Rosh-Ha-Shana no work or business is done by the observing Jew. Penitence, charity and prayer are the essential features of the celebration. The services at the temples and synagogues are solemn and impressive and generally well attended.

CONDUCTS HIS
CAMPAIGN IN
HIS JAIL CELL

NEWARK, N. J., Oct. 3.—William J. Schiner, a candidate for mayor of the town of Vineland, N. J., is conducting his campaign from behind the bars of the local jail. He was ordered on Thursday to pay a fine of \$1 for being disorderly or go to jail. His alleged disorderly conduct occurred while he was discussing local politics.

On the front door of his closed place of business Schiner has posted the following:

"Because of political spite my shop will not open until October 8. I positively refuse to pay for gasoline used by city officials in their automobiles. Right will always prevail. If you want a clean atmosphere and justice to prevail in Vineland vote for me."

Those who have had charge of the Vineland election are as follows: Charles Rudeof, chairman; A. Schmalfeldt, secretary; E. Rehor, treasurer; L. Haupt, H. Pfug, John Buhmann, F. Kling, L. von Sar, William Holkamp, R. T. Kessler and E. Schaefer.
